STARTING EVIDENCE IMPLICATES PREMIER OF NEW BRUNSWICK

Story is Told of the Handing Over of Money in Connection With Campaign Fund—Silence in the Court Room So Intense That the Dropping of a Pin Could Have Been Heard.

St. John, N. B., June 18.—Startling evidence in which the name of the premier appeared for the first time in connection with collectors of the campaign fund was given today by J. William Brankley, the man who handled the money. Mr. Brankley is the general manager of the Miramichi Lumber company, and at the request of W. H. Berry had consented to act as treasurer of the fund.

Silence in the court room was intense as Mr. Carvell took the witness stand in his story to the meeting at the Barker house in Fredericton, when he was taken up to the room of Premier Fleming by W. H. Berry. There he was introduced to E. R. Teed, of Woodstock and the premier.

One could have heard a pin drop as Mr. Carvell asked question after question concerning the premier's presence.

"I shook hands with the premier," said Mr. Brankley, "then he went to the door to leave the room. Turning to me, he said: 'Anything that Mr. Berry tells you about this man (indicating Mr. Teed) is all right.'"

The importance of Mr. Brankley's evidence was anticipated, and there was a stir in the court room as the name was called. He said that his company was a subsidiary of the International Pulp and Paper company of New York, and that Mr. Stearns, of Portland, Maine, was president.

When Berry had approached him for money for a campaign fund he said that he could do nothing without consulting Mr. Stearns. As a consequence both he and Berry had gone to Portland. Berry met with a flat refusal and returned without a dollar. Shortly after this Berry had asked the witness to act as treasurer of the fund and he consented. Berry said that he would notify him later to whom the money was to be paid.

Step by step the witness reviewed the collection of the money. Some of it was left in checks, in envelopes and parcels. Then one day, Berry sent for him and asked him to go to Fredericton.

He met Berry in the Barker house of that city and they went up to the premier's room.

At mention of the premier's name a wave of interest swept over the court-room.

There was a brief shuffling of feet a momentary hush of voices and then a hush.

"We went upstairs to the premier's room," repeated the witness. "When we went in the premier was there. After telling of the premier's words of recommendation for Teed, Mr. Fleming went out and did not come back. Then he turned to Teed, and told the witness that this was the man to whom the money was to be paid. In a few minutes they all went down stairs. E. R. Teed stood up in the court and was identified, his evidence will come later.

Mr. Brankley's story then led to the actual handing over the money. It took place in a room at the Touraine hotel in Chatham. Berry had telephoned to him that he had better bring the money. He did it all up in a newspaper and after reaching the room lowered it on the bed.

"I opened it up that night they all went to Newcastle and he saw the parcel again. An additional \$2,000 was paid over to Teed later to St. John.

The feature of interest in the graft inquiry today was the announcement by Mr. Carvell that he had been in communication with Berry by telephone and had strong hopes that he would return from Boston to give evidence.

danger of Carvell learning of the transaction.

"I will take the chance," was the remark attributed to Berry. Mr. Robinson finally agreed to pay for the Lynch company, but suggested that he should like to talk to Hon. John Morrison, minister of public works.

Berry had replied that there was no use doing that as the minister knew nothing of the fund. The money was to be paid at Mr. Brankley's office. When he entered and offered the money to Mr. Brankley the latter refused to touch it. In one envelope was \$1,500 and in another \$2,167.50. "I will not count it," said Mr. Brankley so the envelopes were tossed into a drawer of a desk that Berry had indicated.

F. E. Sayer, of the Sayer and Hilly Lumber Co. of St. John, was asked by E. R. Teed of Woodstock to pay any amount-over and above the bonus.

Mr. Teed suggested that he pay \$15 per mile for the car.

"I told him I would let him know the day and if everybody had paid I would. He said they had paid."

The witness said he thought it over again and though he had secured the money he decided not to pay. Berry saw him next day and urged payment, but witness had decided by that time definitely not to pay it. It was at the Royal Hotel that he met Mr. Teed. Berry and Teed were supposed to be working together on the campaign fund business. Arthur Hilliard, manager of the Dalhousie Lumber Co., and William Sullivan had refused to pay. "The fishing was bad," was Mr. Carvell's comment. There will be no action this afternoon.

New York, June 18.—Less than twenty-four hours after two American Can company messengers had been held up and robbed of \$2,700 in Fourteenth street, the police had under arrest four alleged bandits, who, they say, planned and carried out the job. The prisoners are:

Joseph Hicorson, of Westchester, identified as a former employee of the can concern, charged with directing the robbery.

Fred Kelly, No. 627 East One Hundred and Thirty-seventh street, the chauffeur who admits he drove the car.

James Eay, a poolroom proprietor, of No. 715 Second avenue, suspected accomplice.

Joseph Longo, a chauffeur, of No. 224 Second avenue, suspected accomplice.

Two or three complaints of drunkenness were made to him. One man, Drury, said that he had taken a little brandy on the boat because he was not

At the opening of the inquiry other witnesses were sworn in, including Constable Sylvester, of the city police force.

Mr. Riggar said that since yesterday he had had a certificate from Hector Chevier saying that he was not in a condition to attend court.

Mr. Dunlop, on Chevier's behalf, gave an undertaking to produce him on Monday morning if required.

Chief Carpenter resumed his evidence. In all well regulated police departments the inspectors were responsible to the chief for discipline in the force, and also for the disposition of the men. It would be the inspectors' duty to call his (the chief's) attention to any fact if any of the districts were not properly patrolled. It would be his duty, with the advice of the inspectors, to arrange for the allotment of men on the jobs.

Ald. Clarke asked whether Mr. Ewing's examination of the witness was to show general conditions of police administration or whether it was in regard to specific charges made in the Bulletin in August, 1912.

Justice Scott said he thought that Mr. Ewing was going a little too far afield.

Witness referred to the establishment of a mounted force to patrol the sparsely settled districts. The city mounted police stables were on Rose Flats and that afforded that district sufficient protection as the men had to pass through various streets going to their beats. There were also men always on duty and available at the mounted headquarters.

well, and not being used to rum, it had taken hold of him.

You dismissed the other two?—I dismissed more than that number. Constable Morris, who asked to be transferred from the south side, complained of discrimination against him. He had stated that certain members of the force had been in the habit of going into a certain restaurant to get drinks when questioned by witness Morris said he had no knowledge of these things.

On account of differences between the men on record of the notices of fines received by them, witness held up the money till disposition of the matter was made by the commissioners. The money was afterwards paid back to the men. Letters passed between him and the commissioners during July, 1912.

Morality Department
In whose charge was the morality department?

At first, Campbell, and then Bureck.

What methods were used in investigating houses of prostitution?

I told Campbell that I would hold him responsible for all vice in the city. I turned all complaints over to him. Were young boys employed as detectives to procure evidence?

Alderman Denies Words of Former Chief of Police!

Remarkable Declaration by Carpenter Brings Hot Rejoinder From Clarke, Who Says Story is "Absolute Falsehood"—Court Electrified by Bout Between the Chairman of the Safety and Health Committee of the City Council and the Witness, Who Refuses to Budge From His Statements—He Also States that Clarke Told Him He Thought There Ought to be Segregation—Carpenter Says the Alderman Inquired at the City Hall Why He Had Not Been Dismissed.

The audience at the police investigation today was electrified by statements made by former chief Silas H. Carpenter regarding a conversation which he had had with the present chairman of the Safety and Health Committee of the City Council, Alderman Joseph A. Clarke.

Veiled references had been made by the former chief of police to certain aldermen, and Alderman Clarke, interrupting, stated that these should be made clear.

"I will be more explicit, Alderman Clarke," said Mr. Carpenter. "Shortly after I was appointed you came into my office and said: 'You come from the east and you must remember that conditions are different in western cities from what they are in the east. In western cities the people want houses of prostitution and they want gambling houses.'"

Alderman Clarke got up to cross examine the witness, and, after a few questions, shouted at the top of his voice: "It is an absolute falsehood from start to finish." He then suggested that the witness was "trying to get even." "I have no disposition to try and get even with you," replied Mr. Carpenter.

The former chief went on to add that Alderman Clarke at the same conversation suggested that there should be segregated districts in the city, and also said that he was going to be a candidate for mayor.

These statements were hotly denied by Alderman Clarke, who, in turn, suggested that he (Clarke) was talking about the different forms of municipal government in Montreal and Edmonton, and also referring to the segregated districts of Montreal. The witness declined to alter his recollection of the conversation.

"Lancey's appointment was a surprise to me," declared the former chief, "because certain aldermen had expressed themselves as opposed to Lancey. I thought Alderman Clarke, as chairman of the Safety and Health Committee, would have something to do with advising on the appointment of police chief. I can prove that he had. He went to the city hall several times, I understand, and asked why I had not been fired."

OIL TRADING GETS NEW IMPETUS FROM THE LATEST STRIKE

Edmonton Companies Claim to Be Beneficiaries of Find in Olds Territory.

LAND OFFICE BEESIEGED FOR RANFURLY LEASES

Local People File Heavily on Report That Big Discovery Has Been Made.

News of the discovery of black oil in the Monarch well has given a new impetus to the oil stock movement in Edmonton and considerable excitement with some very active trading resulted today. Among those who claim a knowledge of the oil business it is being averred today that the Monarch strike is of much more importance than had a similar strike been made in the Calgary field, as the discovery of oil in the Monarch, which is situated to the west of Olds in a locality more than 10 miles from the Okotoks-Calgary field, indicates that the area in which oil may be found to exist in this province.

FOR AUTHENTIC REPORTS OF THE PROCEEDINGS OF THE POLICE INQUIRY, READ THE EDMONTON CAPITAL

AS GROUND CASE, RAILROAD MAY TRY PUT INVEIGIL ON BRANCH, NOT MAIN LINE

GUARANTEE ACT SAYS MUST PASS 'THROUGH' TOWN

Prevalent Impression is that Company Will Try to Dodge Old Hudson's Bay Fort on Peace by Promising Extension of Canada Central, Which is Backed by Government Only as Far as Crossing—Interests Have Engaged Legal Talent and Believe that Wording of Legislation Gives Power to Tie Up Whole Project Unless Line is Built "Through Dunvegan."

There seems to be a wide-spread feeling in Edmonton and the north country that the Edmonton, Dunvegan and British Columbia railway interests will attempt to side-track any other places of importance in the territory the line traverses in Alberta, as the company succeeded in doing with its main line in the case of Peace River. In this connection the case of Dunvegan is interesting. The charter for the E. D. and B. C., given by the dominion government (gratia, of course), gives the company authority to build a line of railway from Edmonton northwest along the south shore of Lesser Slave lake, "at, by or near Dunvegan," to the western boundary of the province, a distance of 250 miles.

When the bargain between the company and province was struck, provision was made for the guaranteeing of the bonds to the extent of \$20,000 per mile for the 250 miles. Nothing was said about Dunvegan either in the dominion government charter or in the provincial government bond guarantee act.

Dunvegan Specifically Mentioned
Something was, however, said about Dunvegan in both. In the charter power was granted to build "at, by or near" the town. The provincial government apparently took precautions to protect the interests of the people of Dunvegan and outsiders who invested their money in that town, expecting that the railway, bearing the town's name, would go there, for the act guaranteeing the interest on the bonds states that they were given "for a line of railway 'through' Dunvegan."

It is now stated that surveys for the railway have run a line through from the present end of steel to a point within about six miles of Dunvegan—that is, on the south side of the Peace river, Dunvegan being on the north. This is where a small river or creek flows into the Peace, and is said to provide a good grade to get down to

as far as Peace River. Crossing only. Then if the Canada Central is extended to Dunvegan the people will have to 'come across' with more guarantees or other concessions."

It is now practically assured that the Dunvegan road will connect at the Alberta-British Columbia boundary with the Pacific Great Eastern, which is being built from Vancouver to the Peace River country, through Prince George. This will make it practically a transcontinental line and those interested in towns up north, which it was expected the road would touch, claim that passing a town by a few miles will make such a town worse off than were no railway built at all.

Investors Are Anxious
Opinion is pretty well crystallized by the following statement of another man who put all his money in the north, with the firm belief that the E. D. and B. C. would build its main line through both Grouard and Dunvegan.

"Judging from the Grouard case it seems that the Ottawa department of railways exists merely for the purpose of enforcing and making legal what the railway wants done. The company backed up on its original proposition, which was that grades were too hard and the distance a little longer, when it was pointed out that both those contentions were wrong. But still they got what they wanted—and that was to build the main line past the town. It remains to be seen what happens to Dunvegan, where happily, we have something about it in black and white."

EDMONTON HARD CITY TO POLICE SAYS CARPENTER

Denies Allegations Made in Bulletin Articles in August, 1913

"GREAT MANY FAKE REPORTS," HE SAID States Everything Possible Was Done to Bring Murders to Justice.

Former Chief of Police, Silas Carpenter, now assistant commissioner of the dominion police force, occupied the witness stand at the police investigation for half an hour before the adjournment for the day, Wednesday afternoon.

He stated that he had been in police work in Montreal for thirty years before coming to Edmonton. He took office in October, 1912, and resigned on February 2, 1914. He denied allegations made in the Bulletin in August, 1913, that there were only two policemen on night duty and 13 on day duty. About this time a series of crimes were reported in the papers which were not committed. "A great many fake reports were made," said the former chief said he was away three months which took place in the city during his regime and in regard to which no one was brought to trial, the former chief said he was away when the Hargrave murder was committed, but in regard to the others everything possible was done that could be done. There might have been some carelessness in the early stages of the investigation into the Hargrave murder, but he did not know about that.

Hard City to Police

Chief Carpenter further declared that Edmonton was a hard city to police. If he had had more men he could have handled things better, but when he took office he thought he would have enough men. It was his own fault that he did not get more, because he believed that if he had asked for more at the beginning of the year he would have got them. He did not ask later because the appropriation had been made.

Constable Ward, R.N.W.M.P., who served a subpoena, said that Sutter said that Sutter declared at the time "I paid \$150 and soon after that I was fined \$100. I will not pay it. I asked for my money back and I cannot get it back. I will say where the money went to and now we will see."

Witness stated that Sutter was under the influence of drink at the time. The statement was a violation of the law. Sutter's part and witness did not ask him any questions at the time.

Robbed of \$1000
Jack Sutter, recalled, said that he did not remember making this statement. It might, however, have been said by him in reference to the time when he was robbed of \$1000 and the money was supposed to have been "cut three different ways." In regard to that he said "Reverse is Sweet and I can get even with someone."

The robber was never arrested although he spoke to several detectives. They said the man could not be found, but witness saw him later at the Grand Trunk. Asked to say to whom he mentioned the case witness said he mentioned it to Coleman and others.

Robert English, secretary to the city commissioners, was called and spoke as to the production of correspondence asked for. The inquiry was then adjourned for the day.

HELP THE GIRLS!

Every package of

WRIGLEY'S SPEARMINT

is now tightly sealed in a waxed wrapper that keeps all the goodness in and every particle of impurity out.

New machines installed at a cost of several hundred thousand dollars in the most up-to-date and sanitary chewing gum factories in the world, are sealing this delicious, long-lasting, low-priced confection for you.

WRIGLEY'S SPEARMINT provides the most economical of pastimes—it moistens the mouth—sweetens the breath—whitens the teeth—and agreeably eases digestion.

WRIGLEY'S SPEARMINT is made clean and kept clean for you in this new air-tight seal. In no other form can you secure as much beneficial enjoyment for five cents.

International Vice-President Bricklayers Union Issues Flat Denial.

CONTEMPORARY REPORT ENTIRELY MISLEADING

Only 67 Men Are Effectively Present Strike—299 at Present Working.

In contradiction to an article that appeared in an evening contemporary yesterday, William M. O'Carroll, vice-president of the International Bricklayers' union, made the following statement last night:

"I am prepared to pay \$100 in gold to any person who can prove to an unbiased committee of citizens that any contractors in this city are paying either 90 cents or 11 per hour to bricklayers."

"You can take it from me," continued Mr. O'Carroll, "that the highest wage scale paid to any bricklayer in this city is 87 1/2 cents per hour. I have just received a telegram from headquarters, and the International Bricklayers' union is prepared to send behind the men in the present strike to the last."

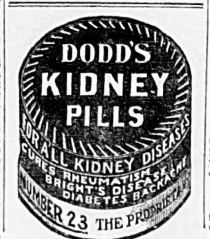

As stated in Tuesday's Capital, the actual number of men affected by the

strike is 67, and not 250, as stated in the article above referred to.

The vice-president further emphatically denies the assertion made as well that 70 cents per hour is the acquiescent wage for the bricklayers. The men have never countenanced any other than 75 cents, which is the minimum that is being paid by 95 per cent of the contractors in the city. No less than 299 men are working in Edmonton under this scale at the present time.

FRENCH TROOPS IN FIERCE FIGHT WITH ARAB TRIBES

Oudja, Morocco, June 18.—Columns of French troops under General Baumgarten and General Courant, after four days' almost continuous fighting, have succeeded in dispersing the fierce Bista tribes. The troops burned the village and killed and wounded hundreds of the tribesmen. The French lost 11 men killed and 53 wounded.

FRENCH SPEAKING CONGRESS HEARS WILFRID GARIEPY

Minister of Municipal Affairs for Alberta Speaks at Prince Albert.

GOD SAVE THE KING IS SUNG IN FRENCH

Loyalty to the British Flag is Keynote of Speeches at Opening.

Prince Albert, Sask., June 18.—Eloquent speeches marked the opening of the third annual congress of the French speaking Catholics of the provinces of Alberta, Manitoba and Saskatchewan in the Empire theater, when an audience of about 500 people gathered.

Several of the prominent speakers killed for the occasion were unable to appear, being delayed owing to the derailing of their train near Humboldt, on the journey from Winnipeg. Those at the opening ceremonies were deprived of hearing Archbishop Langevin, of St. Boniface; Hon. Louis Coderre, secretary of state; Hon. Jos. Bernier, provincial secretary for Manitoba, and others.

The opening of the congress was featured by the presence of Lieut. Governor Brown, of Regina, to whom the French-speaking association presented a pleasing address of welcome, and to which the chief executive of the province made an able reply.

Loyalty to the British flag proved to be the keynote of the speeches, and "God Save the King" was sung in French on two occasions during the evening, while the Marcellais was also sung. The speakers of the evening were, besides the lieutenant-governor, Bishop Pascal, of Prince Albert; Hon. Wilfrid Gariepy, minister of municipal affairs for Alberta; Hon. W. P. A. Turgeon, attorney-general for Saskatchewan; Rev. J. A. Dumas, of Quebec, a member of the permanent committee on the French language, and Mayor Baker.

Hon. Louis Coderre addressed the congress of French speaking Canadians at some length last night. He urged the preservation of the French language, and said that British subjects speaking their mother tongue of French should be prepared to make some little sacrifices. While they preserved the French they should also learn English. "They would benefit both Canada and themselves. He exhorted his hearers to be loyal to British instructions. He advocated cooperation between the French and English. The report of the Saskatchewan association showed 1,277 members and 50 local branches.

Rev. Father Brassard, A. Selwyn, M.P., and H. A. Chm, M.P., also spoke as well as Hon. W. P. A. Turgeon, attorney-general of Saskatchewan.

Several speakers were heard on the colonial question, and all favored active colonization efforts.

Stomach to be Analyzed.

Saskatoon, June 18.—R. H. Eyer also here yesterday under circumstances which point to strychnine poisoning. His stomach has been sent to Regina for analysis and an inquest will be held if the suspicions of the physician are confirmed.

MR. BORDEN
COMING WEST.

Western Canada, according to a semi-official announcement from Ottawa, is to be honored by a visit from Premier Borden sometime during the summer. The date, it is said, has not been definitely fixed, but August is mentioned as the most probable time for the tour. The West will, no doubt, be pleased to see Mr. Borden and will give him the reception which is due to one holding his high position, but the West does not now attach any political importance to a visit by Mr. Borden. It has been too clearly demonstrated that the agriculturalists of Canada, and especially the Western agriculturalists, have nothing to hope from his government, for them to look forward to his visit with anything but apathy.

Things are vastly changed since Mr. Borden last toured the West. Then he was a candidate for the suffrages of the people, and the future lay before him to make or mar as he chose. Liberals and Conservatives alike hailed him as a man of unblemished political life, who sincerely desired the good of the whole people, and could be counted upon to counteract and correct to the best of his ability the baser elements in his party. His promises to the farmers—and they were most explicit—were accepted as pledges that if he were returned to power he would make their interests his peculiar care, and would see to it that they were relieved of burdens, which are beginning to be felt throughout the West as a serious handicap to the success of agriculture.

Mr. Borden has not fulfilled a single one of the promises which he made at that time. On the contrary he has placed himself unreservedly in the hands of the interests most hostile to the demands of the farmers. The trifling reduction on agricultural implements, made during the session that just closed, not only brought no relief to the Western farmer, but it was an insult to his intelligence, and Mr. Borden, if he does not alter his plans for a Western tour, will find that it has been taken as such. Party lines are not drawn in the West as they are in the East. There is in the prairie provinces a large and growing mass of people who do not care whether a government is Liberal or Conservative in name so long as it plays fair, and who are not to be cajoled by the cheap political tricks which have generally been found effective in the East. The Westerner knows what he was promised and what he received, and he can't be convinced that he has received a full loaf when he has the evidence of his senses to show him that it was the merest crumb. The Western delegations which went to Ottawa this year asked for something substantial, they were sent away with empty hands and they had the chagrin of seeing the opponents of their claims received with open arms while they themselves got the coldest of hearings. No doubt was left in their minds and there is no doubt in the minds of the whole body of Western agriculturalists, that the Borden government is a manufacturers government and that where the manufacturing interests come into conflict with those of the farming community the latter will on every occasion be turned down.

We agree with the Toronto Globe in saying that Mr. Borden cannot look forward to a Western trip with pleasant anticipation. He has too much to explain that will not admit of explanation. He may hope by smooth talk to placate the adherents of his own party, but we fear that party fidelity will not to any great extent stand proof against the broken pledges of the past and the declared policy of favoritism to the big interests.

ANOTHER WAR ON
THE HORIZON.

One of the direct results of the breaking up of the Balkan league and the following fight between Bulgaria on one side and Greece and Serbia on the other, is the present tension between Greece and Turkey, almost a state of war. If the league had been continued, and had the so-called Christian states of the peninsula refrained from using up their strength in fighting one another they would have stood together as a solid front, discouraging any attempt on the part of Turkey to get back its lost territories or to seek revenge on the Balkan people within their borders.

After the league went to pieces it was a foregone conclusion that sooner or later Turkey would attempt to regain what it had lost. Its first effort was the recapture of Adrianople. Its latest has been the provoking of hostilities with Greece, which it at present considers its most hated enemy, and from which it hopes to wrest its lost Aegean islands and its Macedonian territory, including Salonika. The Turks have been preparing for such a war for months. German officers are again drilling their troops and recently the porte bought from Argentina a modern cruiser with the avowed purpose of overshadowing the Hellenic navy. As Turkey has gained confidence in its treatment of the Greeks within its territories has become more and more harsh and its complaints about the treatment of Ottomans in the Greek possessions have grown correspondingly loud.

It is not likely that Greece has for a moment been deceived as to the true condition of affairs, or that it has construed the temporary quiet as anything more than a lull between storms. On the contrary, the government at Athens has been straining every nerve to get ready for the coming fray and the recent negotiations for the purchase of two American war vessels was only one incident in its expansive military program. That program has been so heavy from a monetary standpoint that only the direst necessity could justify it.

Actual war may come at any moment—if, indeed, it does not already exist—unless strong external influence peremptorily stops it. The element of greatest uncertainty in this direction outside the remote possibility of action by the powers is the new Balkan league, formed of the wreck of the old one with Roumania substituted for Bulgaria. Just how strong an alliance may be, or how closely knit it is, is not very clear.

The Adventures
of Kathlyn

By Harold MacGrath.

SYNOPSIS OF PREVIOUS CHAPTERS.
Kathlyn Hare, believing her father, Col. Hare, in peril, has summoned her, leaves her home in California to go to him in India. Unhailah, pretender to the throne of the princely state of Kathlyn, the colonel, named by the late king as his heir, because he fears the American may assert his royal rights. Upon her arrival in India, Kathlyn is met by Unhailah, who tells her father is dead and that she is the queen. An elaborate durbar is arranged, the central figure of which is Kathlyn, protesting and weeping. When the crown is placed upon her head Unhailah announces that she is to be married to him forthwith. Her refusal infuriates him, but a Kathlyn's beauty and spirit have made a strong appeal to the people who yield the point for the time being. A priest announces that no woman may rule Kathlyn, but because the young queen is not conversant with the laws of the state she will be given seven days to decide.

When Kathlyn reiterates, at the expiration of the week of grace, her refusal to marry Unhailah she receives sentence from the supreme tribunal that she is to undergo two ordeals with wild beasts. If she survives she is to be permitted to rule without hindrance.

Through the pluck and resourcefulness of John Bruce, an American and fellow passenger on the steamer which brought Kathlyn to Kathlyn, who has come to her assistance, she escapes which carries her from the two ordeals. With Bruce she flies from Kathlyn. The elephant which carries her becomes frightened and runs away, separating her from Bruce and the rest of the party.

After a ride filled with peril she takes refuge in a ruined temple. The holy men, the villagers, believing her to be an ascetic priestess, flee from the temple, leaving her to remain at the guardian of the sacred fire. But Kathlyn's love is also the abode of a lion, and she is forced to flee from it with the savage beast in pursuit. She escapes and finds a retreat in the jungle, only to fall into the hands of a band of slave traders, who bring her to Kathlyn, the public mart. She is sold to Unhailah, who, finding her still unsubmitting, throws her into the dungeons with her father.

Bruce and his friends effect the release of Kathlyn and the colonel. Unhailah's attempt to recapture her is unavailing, and the fugitives are given shelter in the palace of Kathlyn. The same night the sacred white elephant, the king's mount, is supplied with camels and servants by the king's order. They start on their journey to the coast. The party is overpowered and taken in custody by the king's leader, recognizing the colonel, dispatches Kathlyn and Pundita to Kathlyn for ransom for the white king, his daughter and Bruce. Unhailah journeys to the fair of the jungle. The colonel is delivered to him and he orders that Kathlyn and Bruce be killed.

(Copyright, 1914, By Harold MacGrath.)

CHAPTER XIV.—Continued.

"Who can say?" There are some in this land who possess mighty wills, who can make man sleep by looking into his eyes, who can overrule and destroy weaker minds. I know I have seen. You have heard of suspended animation? Well, I have seen examples of it; and so have my people. Can you wonder at their credence in being awayed this way and that? But those men refuse to do as we do about in the bazaars with wooden bowls for coppers. It is said, however, that all curses die with their makers. It depends upon how old the Colored Sahib's curse is. I know priests who are more than a hundred years old and writhed like the hide of Allah, the son of elephants."

"But a child could see through all this ruse."

"Can Bruce Sahib?" Again Ramabai smiled. "My people are sometimes children in that they need constant amusement. Have patience, my friend, for I understand. Do I not love Pundita even as you love the memsahib?"

"What do you mean?" demanded Bruce, roughly.

"I have eyes."

"Well, yes, it is true. Behind you are your people; behind us, nothing. That is why I am frantic. Unhailah, whenever he finds himself checked, digs up what he assumes to be an undisputed law. There is none to contest it. I tell you, Ramabai, we must escape soon, or we never will. You suggested this impossible marriage. It is horrible!"

"But it kills, Unhailah; and killed, he becomes careless. Beyond the north gate there are ever ready men and elephants. And when the moment arrives, thither we shall fly, all of us. But," mysteriously, "we may not have to fly. When Unhailah learns that the Colored Sahib will refuse to sign the necessary treasury release, the soldiers will understand that once again they have been trifled with."

"We must wait. But it's mighty hard."

The garden of bridges has already been described. But on this day, when the ten veiled candidates sat in waiting, there was spring in the air; and there were roses climbing trellises, climbing over the marble walls, and the pomegranate blossoms set fire to it all. At the gate stood Ramabai dressed according to his station and representing by proxy the king. Presently a splendid palanquin arrived and within it a sturdy cavalcade. She was laden with jewels, amulets, and lead ornaments; pearls and uncut sapphires and rubies. Upon lifting her veil she revealed a beautiful high caste face. Ramabai bade her pass on. No second had she taken her place than still another palanquin was announced, and this was drawn by fat sleek bullocks, all of a color.

Ramabai held up his hand. The bullock drivers stopped their charges, and from the palanquin emerged a veiled woman. This was Kathlyn.

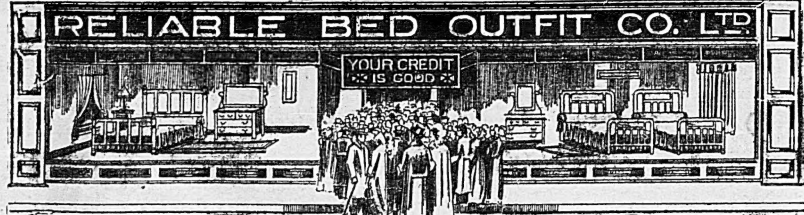

The selected candidates were now all present. As master of ceremonies Ramabai conducted them into the palace, thence into the throne room, gaily decorated for the occasion. In a balcony directly above the canopy of the throne were musicians, playing the mournful harmonies so dear to the oriental heart.

(To be continued tomorrow.)

Want Consul Removed.

Santo Domingo, Dominican Republic, June 18.—The Dominican government yesterday asked the United States government for the immediate withdrawal of the American consul at Puerto Plata, on the ground that he had sided with the revolution.

THURSDAY, JUNE 18th

Opening Day of the Store
For All the People

The store for the people will open its doors to the public today from 10 a.m. to 6 p.m. It shall be our aim to meet every demand and extend every courtesy to the public in which we have the utmost confidence and for that reason we installed our credit system and our motto hereafter will be 'YOUR CREDIT IS GOOD.' We will carry every thing in the line of bed outfits, davenport, couches etc. from the cheapest to the best at the very lowest prices with the very best accommodations of weekly payments without any extra charge of interest. Come today and see for yourself and enjoy the day with us—**No Goods Sold Opening Day.**

SOUVENIRS FOR GENTLEMEN

FROM 10 TO 12 P. M.

Musical Selections by Well Known Orchestra

FROM 3 TO 6 P. M.

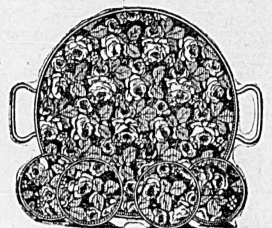

SOUVENIRS FOR LADIES

FROM 2 TO 6 P. M.

Illuminated Window Display

FROM 9 TO 11 P. M.

We have secured one thousand beautiful German Coster Sets as shown in cut which we will present to ladies only between the hours of 2 and 6 p. m. No souvenirs will be reserved and absolutely only one will be given to each lady. The souvenirs to be free of any charge with the compliments of the firm.

Be Sure and See our Window Exhibit of the Two Famous Pictures

"Little Red Riding Hood"

"Little Red Riding Hood," the well known and much related story reproduced in life size in our window. You will see the wolf and the child in an exact reproduction, the wolf in bed posing as Grandma surprises Red Riding Hood as she enters the log cabin. This exhibit surely will appeal to everybody.

"Now I Lay Me Down to Sleep"

"Now I Lay Me Down Sleep" An exact copy in life size exhibited in our window which no doubt will be appreciated by every mother as it is a very familiar scene. The child and her true and constant companion and playmate, the faithful dog, are shown in earnest prayer at the bed side before retiring for the night.

COMING—"CHARLEY'S AUNT"

LARGE AREAS ARE GRABBED FOR OIL EAST ON C. N. R.

Excitement is Renewed by Discoveries in New Districts—Beaumont and Paraffin Companies Blanket Many Sections—Huge Anticline With Four Domes Said to Exist—Expect Fluid at 800 Feet.

Probably the most important feature of the present country-wide oil development, as far as Edmonton is concerned, which has yet occurred, culminated yesterday, when about 50,000 acres of land were blanketed by two companies and several individuals near Birch Lake, on the Canadian Northern main line, east of the city about 75 miles.

The two companies interested are the Alberta Beaumont and the Alberta Paraffin, both of which took leases on large areas. Interested parties have had geologists working in the field for some time and only yesterday the news became public that discoveries, likely to be of enormous value, had been made. A stampede for oil leases immediately followed and filing is still going on.

It is stated that a huge anticline with four domes exists underneath the surface in that part of the country and that oil should be struck at about 800 feet. The anticline runs from near Wainwright, on the G.T.P., and the Battle river, north-west toward Pakenham, which is just north of the Saskatoon river and right through a point near Birch Lake, which is south of the Canadian Northern main line near Hainbury station.

It is, perhaps, worthy of special note that oil leases have been taken out at both ends of this anticline—both at Pakenham and Wainwright.

It is stated that four of the world's most famous geologists have been looking over the ground for the past few weeks, including the man who located the Pingman anticline, a Standard oil expert, and two others.

With the disclosures of the past few days, including the sensational gas discovery at Mundare, and that of heavy black oil west of Olds yesterday, together with the known northern oil resources, local people believe that the time is coming nearer every day when Edmonton will be a great oil center, with wells of greater or lesser magnitude and wealth on all four sides.

Brokers report renewed briskness in demand for the shares of most of the companies, particularly those of the northern and central parts of the province. It is predicted that there will be a great rush for leases in the Olds and Hainbury districts, as well as over all the central portions of Alberta, during the next few weeks.

NEW CIVIC CLUB FRAMING THEIR CONSTITUTION

Enthusiastic Meeting Held in City Council Chamber Last Night.

POLICY IS THAT OF BETTER GOVERNMENT

Objects Worthy of Placing Association Among Foremost in City?

With purposes, aims and objects worthy of the dignity of any organization and with scope sufficiently broad to place the association among the foremost of the city; with modern recognized methods of legislation, administration, and election, including the initiative, referendum and recall, and preferential ballot, the proposed constitution of the new Civic club of Edmonton was passed provisionally in large measure at a meeting held in the council chambers last evening.

Another meeting of city employees is to be held in the council chamber next Wednesday evening to give further consideration to the proposed constitution and to complete the organization. All city employees are urged to attend these meetings.

The new policy for the organization is the "Civic Service Association" of Edmonton. The purpose, aims and objects of the association, as set out in the constitution, are:

"To promote and to increase the knowledge, skill and proficiency of its members in all things relating to business incident to the civic service by co-operative study of all the problems pertaining to municipal affairs."

"To foster co-operative effort in placing the civic service upon a higher plane, and affording it the dignity deserving."

"To seek recognition of civic service as a vocation in which men and women should be trained from the bottom and promotion made from the rank in filling vacancies as they occur."

"To urge standardization of the civic services to the end that service rendered and compensation received shall be equitable to all concerned."

FREE OF ALL THREE DISEASES

"Fruit-a-lives" Brought Him Perfect Health

AVON, Ont., May 14th, 1913. "I am younger since I have been taking 'Fruit-a-lives'. I was troubled very badly with Piles, Constipation and Stomach Disorder, but I found 'Fruit-a-lives' was the panacea for the whole three."

Now I am free of all these diseases and enjoying perfect health, and able to work whenever I like. Five years ago, I started taking 'Fruit-a-lives'. I took two every night and they worked wonders for me.

No other medicine I could get was so good and I took lots of different remedies before I found out how good 'Fruit-a-lives' were.

I keep 'Fruit-a-lives' on hand all the time, and am never without them. I even take them with me when I go motoring, so I can have them handy. 'Fruit-a-lives' are worthy of every good word I can say about them. The fact that they cured me of Piles, was something to be everlastingly thankful for."

GEORGE LAUR. 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

"To guard against the civic service becoming a victim of the patronage system, wherein political or fractional affiliation becomes a factor in respect to employment or the retention thereof."

"To advance the course of municipal ownership, and safeguard our utilities from falling into private hands by exerting united effort in attaining the maximum service at minimum cost for the city of Edmonton."

"To foster a wholesome, fraternal spirit among members of the civic service; to further the interests and welfare of the members in every proper manner and to promote co-operation in all matters of mutual need."

"To provide intellectual and physical recreation among the ranks of the civic service by fostering social and other entertainment."

"To make a study of government in general and municipal in particular, representation, franchise, community, interests, social well being, and, in short, all things pertinent to municipal life."

HELP THE GIRLS!

GREECE IS READY WITH ULTIMATUM TOWARDS TURKEY

Demand for Reinstatement of Refugees in Their Lands Must Be Met.

ASIA MINOR DECLARED UNDER MARTIAL LAW

Turkey Bitter at Loss of Islands Taken From Her in Balkan War.

Yienna, June 18.—Greece will deliver an ultimatum to Turkey. It is learned from a diplomatic source, unless a reply is received today to the demands made last week that the government at Constantinople stops the persecution of the 50,000 Greeks remaining in Asia Minor, reinstates in their homes and lands the 50,000 who have sought refuge in their native lands and gives guarantees that they shall not be molested again.

It was further demanded that M. Trikoupi be reimbursed for losses in the sum of \$5,000.

After these demands were made, Turkish regulars with machine guns, together with a force of Israeli Bashi Bazouks, attacked on Saturday the town of Aivalik, on the coast of Asia Minor, inhabited by 25,000 Greeks.

A Constantinople dispatch reports that the Turkish authorities at Smyrna have proclaimed martial law in Asia Minor and along the Dardanelles in order to put a stop to the flight of Greeks from Turkey.

In the Greek national assembly on Friday, Premier Venizelos said:

"If a stop is not put to these conditions the Hellenic government will be forced not to content itself with joining in the lamentations of unhappy refugees."

Both Turkey and Greece have been quietly preparing for war for some time and it is presumed that Greece desires to press matters before Turkey gets the two dreadnoughts building for her in England, which would give Turkey naval superiority at least on paper.

Turkey wants to get back the islands which were taken from her in the Balkan wars, and her bitterness was intensified by the Greek decrees issued on Saturday formally annexing Chios and Mytilene, which were allotted to Greece by the treaty of Berlin.

EVIDENCE SO FAR ONLY TENDING TO MORE CONFUSION

Quebec, June 18.—Out of a welter of testimony that three very little fresh light on the disaster to the Empress of Ireland, which sank off Father Point after collision with the Collier Stord on May 29, the dominion commission inquiring into it yesterday managed to extract a few new points, which, however, only serve to make the confusion more complete and to indicate that the evidence of the Empress and Stord officers, conflicting as it does, suggests that a similar state of cross purposes may be found to be the final explanation of the wreck.

THE GRATTAN OIL CO., LIMITED

Capital \$500,000. Shares \$1.00 Each, Par Value

An Edmonton Field Developed by Local Men

The Grattan Oil Company, Limited, is a sound, reliable organization, directed wholly by local men of well known standing, which offers the public an opportunity in a thoroughly prospected proposition. It will pay you to enter into details and satisfy yourself of the genuineness of this undertaking.

Location of Leases

Sections Thirty-two (32) and Thirty-three (33), Township Forty-four (44), Range Eight (8), West of the Fourth Meridian, in the Province of Alberta;

Section Thirteen (13), Township Forty-five (45), Range Eight (8), West of the Fourth Meridian, in the Province of Alberta. The oil-bearing strata—Dakota and Devonian—are closely associated in this field. It is expected the Dakota will be reached under 1800 feet.

Valuable Leases Secured

The project has been examined by our own geologist, and selected after a thorough survey of other oil fields in Alberta. This field has been denoted as a favorable one by the following eminent men of the Canadian Geological Survey, Dr. Dawson, Dr. Dowling and Mr. Tyrrell. See Reports 1882-3-84 and 1886.

100,000 SHARES ARE NOW OFFERED FOR SALE AT 50c PER SHARE. PAR VALUE \$1.00

The directors assure the public that the proceeds of the sale of this stock shall be used for development purposes exclusively. No money paid for leases. Prospectus on application.

MONARCH, WEST OF OLDS, DOWN 808 FEET, STRIKES FLOW OF HEAVY BLACK OIL

LONG LOOKED FOR FLUID DISCOVERED EARLY YESTERDAY

Anticipated by Geologist Dunn
and Directors Wait Up
to See.

WILL MEAN ANOTHER
FIELD TOWARD NORTH

"Nitro-Glycerine Would Start
Gusher That Would Blow
Down Derrick."

Calgary, June 18.—Black oil was struck in the Monarch well yesterday morning at a depth of 808 feet.

The oil is believed to be in quantity, and B. W. Dunn, the company geologist, ordered drilling stopped until a special cap can be put over the mouth of the well.

The head driller made the statement to President William Geoghegan that a charge of nitro-glycerine would unseat the oil and start a gusher that would blow down the derrick.

The bit cut into the oil at 8:45. President Geoghegan and all the directors were present.

The strike had been anticipated by Geologist Dunn, and the directors waited up to see the well brought in.

A quantity of the oil was brought up in the borer. It proved to be the black oil, long dreamed of by the Alberta oil operator, the mother fluid with which comes the lighter and more volatile oil, such as is produced by the discovery well of the Calgary Petroleum Product company.

The men who are in charge of the affairs of the company crowded about the borer as its contents were being discharged into the sluice box.

"It is the real thing," said Mr. Dunn to President William Geoghegan. "It is black petroleum, and just what we were hoping for." Then followed mutual congratulations.

The conditions at the well were such that Mr. Dunn decided to order a cessation of operations, fearing that if the bit was sent further into the formation, a flow of oil would result.

The news got out on the street about

10 o'clock last night and curb trading was active. The stock sold as high as \$40 before midnight.

The following is the official statement handed out to the press by W. A. Geoghegan, president of the Monarch company:

"Mr. Dunn, the geologist of the Monarch company, announces that heavy black oil was struck at the well on Wednesday, June 17, at a depth of 808 feet.

(Signed) "W. A. GEOGHEGAN."

OVERWORKED THE
KISSING STUNT.
POLICE OBJECTED

Montreal, June 18.—Vassil Delmege, collection clerk of the Merchants' bank, fined Judge Leet in the arrangement court yesterday morning, charged on five counts of grand larceny.

While the total population alleged in the warrants in which he is held amounts only to \$7,000, it is said that the total amount of the alleged thefts, extending over a period of months, is more than \$100,000. A formal plea of not guilty was entered. An application for bail will probably be made today by Delmege's attorneys.

Because of the conduct of Delmege and Miss "Butter" Legault, the young woman who traveled around with the absconder as his wife, Delmege was removed to Bordeaux jail instead of being permitted to spend a few days in the private cells at police headquarters, as had been intended. The Legault woman called at police headquarters to see Delmege and the pair engaged in such affectionate demonstrations that the police objected. Then, when Delmege was being taken away by him and "Butter" exchanged kisses a number of times.

CAN A MILLIONAIRE
BE A CHRISTIAN? IS
METHODIST PROBLEM

Montreal, June 18.—"Can a millionaire be a Christian?" This was one of the subjects arranged by a committee of the Montreal Methodist conference for discussion at next year's gathering as a prayer hour topic, but when it was broached this afternoon there was considerable objection to it.

The inference was too strong for some of the delegates. In view of the number of rich men who are members of the Methodist church, so a substitute subject, "Christianity and wealth," will take the place of "Can a Millionaire be a Christian?"

Cleveland, Ohio, grocers intend to force Sunday closing.

WILL HOLD INQUIRY INTO OCEAN RATES ON WHEAT AND FLOUR?

Ottawa, June 18.—Hon. Geo. E. Foster announced yesterday that his department has started an inquiry into the ocean freight rates question, preliminary to the matter being taken up by the dominion's royal commission.

The main point at issue is the complaint of the Dominion Millers' association, that the rates on wheat are discriminatory as compared to those on flour, and that they operate to the decided advantage of British flour manufacturers. They asked recently that the government subsidize a line of steamers which would guarantee low rates on flour, but to this the cabinet would not accede.

The millers have represented that their whole industry is imperiled and the facts are now being inquired into.

SAYS BACK TO THE FARM, SOLUTION FOR UNEMPLOYED PROBLEM

Ottawa, June 18.—"If we could only induce those out of work to go into the country, away from the city, and to free dinner tables provided for them, it would be a great thing for the country. I could place 10,000 men on the farms in Ontario alone."

Such is the opinion expressed by Hon. T. W. Crothers, minister of labor, in connection with the unemployed, which is common in the cities of Canada today.

"The trouble is," said the minister, "that so many of these men refuse absolutely to go on the farm. Everywhere there is an outcry for farm help. As a people we are losing money because we cannot get the land filled as it should be. Whatever militates against the farmer militates against Canada as a whole."

SERVANT MARRIED TO GREAT PAINTER OVER THREE TIMES HER AGE

London, June 18.—Sir Francis Power, the distinguished painter and president of the Royal Scottish society of painters in water colors, married, before the sheriff in Glasgow yesterday, Annie McNab, a servant in his household and the daughter of a gardener. The bridegroom's age is 51, and the bride is 25.

HELP THE GIRLS!

Famous Dingman Well A History Maker

On May 15th, 1914, at a point in the foothills of the Rocky Mountains some 42 miles from the city of Calgary, the efforts of those men who had been striving for almost a year to find oil in an unproved field were rewarded.

It will make a story even more interesting for those who hear it for the first time in years to come when the Southern Alberta oil fields have achieved the fame which undoubtedly awaits them, than for us today. Working against odds, against discouragement of every description, spending thousands on thousands of dollars of their own hard-earned money because of their faith in the proposition to which they had set their hands, the men who sank the Dingman Number One Well, had just cause for jubilation when they struck oil of the highest gravity yet known in the history of oil discovery in North America.

At noon on the eventful day the borer was brought up with unmistakable signs of oil and those who were at the well gave way to some excitement. Drilling continued, and at six o'clock on the same day the strike was made. The months and months of toil were rewarded; the disappointments, the discouragements, the ridicule—all were forgotten. In a flash the news reached Calgary. For one day the city remained inactive, scarcely realizing what the event meant. Then the whole town went mad and what old oil men describe as the greatest boom in their memories began.

"C. A. P." IS BIGGEST, and STRONGEST COMPANY

The Calgary Alberta Petroleum Co., Limited, (non-personal liability) is the biggest, strongest company yet organized in the Alberta fields. Owning leases in the best sections of the field to the extent of 2,400 acres, the company has obligated itself to acquire 7,600 acres more leases on the oil-bearing anticlines.

The Directorate of the C.A.P. is composed of men who stand second to none in character and reputation and who include in their number such pioneer experts as W. S. Herron and W. A. Elder. Mr. Herron has personally supervised the selection of the company's properties and will continue to do so.

Now, right now, the moment you read this advertisement, is the time for you to apply for shares in this great company. These are the early days of the Alberta fields. The investors who make money in oil are those who are able enough to buy when the field is young. YOU have this opportunity NOW. We wish it understood that when another producing well is brought in, this stock will automatically increase in price without notice.

SHARES ARE NOW SELLING AT 50c EACH—SEND IN YOUR APPLICATION TODAY.

NOTE:—Your name and address on a postcard will bring you, free, a copy of an interesting booklet: "A Message from the Inside," just off the press.

OUTBURST FROM MEXICAN PARTY OVER MEDIATION

Proposal to Install Constitutional Provisional President Resented.

WOULD BE AIDING AND
ABETTING VIOLENCE

Manifesto States That This
Would Turn Sentiment
Against U.S.

Niagara Falls, Ont., June 18.—The Huerta delegates to the mediation conference issued a statement last night charging that the insistence of the United States on the installation of a "neutral" was tantamount to abetting and even to exciting fraud and violence at the elections.

The publication of this statement was unexpected by the American delegates.

The statement says: "There is no reason for further concealment of the difference which has arisen between the American and Mexican delegates to which the press has already referred, over the provisional government for Mexico, which is at present under consideration. The Mexican delegates, adopting a principle advanced by the mediating plenipotentiaries, agree to the designation of provisional president of a neutral. The American delegates submitted their plan based on the condition which the Mexican delegation flatly rejected, of its own accord and without even consulting the reasons for the rejection, so that they might better be studied by the American delegates. The Mexican delegation addressed to them the memorandum, the chief considerations of which are the following:

"In a country unused to electoral functions, such as Mexico, and particularly in the circumstances and conditions it would be in once the revolution had ceased, a provisional government composed of revolutionaries and with revolutionaries in authority throughout the country, would turn the elections as it wished; the public vote would be falsified and the result would necessarily be the election of another revolutionary. Consequently when the Washington government insists today on the designation of a constitutionalist as provisional president, it favors also from today the imposition of a revolutionary president at the elections. Such an attitude is bad for both countries and for the chief of the revolution (who will doubtless also be his candidate) bad for these countries because it will create a national sentiment

of hostility in the Mexican people when a sympathetic rapprochement between them and United States should be striven for; bad for Carranza and for his party, because public opinion in Mexico, whose susceptibility in the matter is well known to them, would ever accuse them of having brought about the intervention of a foreign nation to enable them to achieve power, and of selling an authority subservient to a foreign government.

In Mexico, in the present circumstance only a well balanced government can guarantee electoral freedom, so that the rejection of the neutral government proposed by the mediating plenipotentiaries is tantamount to abetting and even to exciting fraud and violence at the elections."

Forecasts Change

On word from the Washington government, the next move in mediation, Justice Lamar and Frederick W. Lehmann telegraphed early yesterday a 2,000 word report of their conference at Buffalo with Rafael Zalazar and Luis Cabrera, authorized representatives of General Carranza in the United States.

A general feeling here that the United States may inaugurate a distinct change of policy has been produced by the uncompromising attitude of the Carranza and Calles dispatches telling of friction between Carranza and General Villa, reports of a rupture in Sonora between Governor Maytorena and General Obregon and news of constitutionalist reverses on land and sea.

LARGE QUANTITIES OF WAR MATERIAL LAND ON THE IRISH COAST

Dublin, Ireland, June 18.—Large quantities of rifles and ammunition were landed during the night on the Connemara coast, the west of Ireland by the Nationalist volunteers.

The consignments are supposed to have been brought by mystery vessels which had been sighted cruising the coast for a week past, but had refused to reply to any signals.

The rifles are said to be of the latest American pattern. Torpedo boats have been ordered to patrol the coast to prevent further gun running.

SUMMER SKIN TROUBLES
Sunburn, blistering, and irritation are the commonest form of summer skin troubles, and Zam-Buk ends these very quickly. It works in two ways. As soon as applied, its antiseptic powers get to work and kill all the poison in a wound, a sting or a sore. Then Zam-Buk begins the healing process, and fresh healthy tissue is built up. For sore, blistered feet, sore hands, heat rashes, lake heat spots, sore places due to perspiration, etc., you can't equal Zam-Buk. It also cures cuts, ulcers, abrasions, piles, and all inflamed and discolored tissue. Druggists and stores everywhere sell Zam-Buk, 50c box. Use Zam-Buk Soap also, 25c per tablet. All stores, or Zam-Buk Co., Toronto.

FINANCIAL WRITERS CONCLUDE DOMINION ECONOMICALLY SOUND

London, June 18.—The empire section of the Financial News, which appeared yesterday, publishes two articles telling "plain truths about Canada," and discussing "the Dominion's soundness."

It declares that Canada is fast emerging from the world-wide crisis unscathed and that the standards economically sound from the east to the west and from north to south. It is admitted that hard speculation has harmed the country's development and has tied up large sums.

The writer says that the existing depression in Canada today is due to causes outside of Canada. The new articles are separately written by different authors, who reason similarly. They each conclude that the Canadian outlook is satisfactory.

KING AND QUEEN TO VISIT CANADA DURING FALL 1915

London, June 18.—Ever since the king's accession it has been generally understood at court and that the king and queen would at the earliest opportunity make a tour of the overseas dominions.

His Majesty has, indeed, promised both the Australian and South African governments that he would do this and now the visit is expected to take place in the autumn or early winter of next year, the route being out by the cape and home through Canada. The colonial governments of the dominions have already discussed the details.

King George particularly desires to attend the official founding of the new Australian Federal capital at Canberra.

Little Girl is Missing.

Sackatoon, June 18.—Marmie McIntyre, the two-year-old daughter of A. M. McIntyre, a local solicitor, while playing in the back yard of her home, which adjoins the river bank here, for a moment escaped the watchful eye of her mother, and although systematic search has been made for the last 12 hours, she is still missing. It is feared that she may have fallen into the river, but the opinion is also advanced that she may have been kidnapped.

New Terror for Lumbermen.

Toronto, June 18.—Hush fires in northern Ontario have added a new terror for lumbermen in the district by attacking stores of dynamite located at various points, and in one case the men barely escaped with their lives, according to reports received by the department of lands, forests and mines yesterday.

Joe Prevents Rescue.

Washington, June 18.—The United States revenue cutter has arrived at Nome, Alaska, and advised the treasury department that it will be impossible, on account of the ice, to proceed north at this time for the rescue of the crew of the Canadian ship Karik, which was wrecked on Wrangell Island.

KAIDOSCOPIC CHANGES IN OIL STOCKS FOLLOW DISCOVERY AT MONARCH WELL

SEGUR JUMPS TO \$1,800 A SHARE; NOBODY IS SELLING

Black Oil Shales Brought Up By Daler—Capitalists Apparently Trying to Get Stock—Stokes-Stephens, With Large Adjacent Holdings, Also Soaring, With Few Offered.

That the McDougall-Segur well, the well which was among the first to start drilling in the Calgary field and whose directors have all along been very reticent regarding the possibilities for striking oil, really struck a flow and said nothing about it?

This question was asked in a dozen brokers' offices this morning. Upon investigation at the offices of the exchange, 40 Jasper east, which has a direct wire to Calgary, it was found that the stock of the company had gone suddenly up from \$1,350 to \$1,500 a share, with no sellers.

Last week S. Wheeler of the Wheeler brokerage of Calgary, which is connected with the local exchange, visited the Segur well and at that time the shales being brought to the surface by the daler contained heavy deposits of black oil.

No visitors have been taken out to the place since. It is said, but men are bidding \$1,800 a share in Calgary today. Last week it was \$1,150. Even at \$1,800 there are no sellers.

Shares in the Stokes-Stephens company, which has large holdings adjacent to the McDougall-Segur, have similarly taken a jump and there were many enquiries for them in local offices today. A large number of Edmonton people bought this stock from T. B. Strain and J. B. Carlson, 22 Jackson block, some time ago, at low prices, and they are all naturally elated over the fact that the "big fellows" are trying so hard to get McDougall-Segur. It is a notable fact that Stokes-Stephens has almost always been higher in Calgary than in Edmonton, although the head office is in Calgary.

When the news spread round town about the sensational rise in the price of McDougall-Segur, with no information forthcoming, many at once tried to buy Stokes-Stephens, but there is very little of it offered, and none whatever of McDougall-Segur.

A French shoemaker has patented a machine that makes a plaster cast of a customer's foot and from it forms a last over which his shoes are made.

OIL TRADING GETS NEW IMPETUS FROM THE LATEST STRIKE

(Continued.)

lance is much greater than at first thought.

One of the important features of the Monarch strike in the shallow depth at which oil has been discovered. In the Okotoks field it has been shown by the developments of the drill that the Dinman anticline lies buried to a depth of 2,700 feet, and this great depth makes the area in which practical drilling and oil production is possible comparatively narrow, with the sharp dip of the Dinman anticline the distance from the apex at which the oil formation can be reached by the drill is not great. The Monarch discovery, on the contrary, having been made at 808 feet, is taken to indicate that the oil sands will be reached in that territory over a much larger area.

Theorists in the realm of oil geology are claiming today that Monarch discovery demonstrates an entirely new series of anticlines to the east of the Dinman anticline and the corresponding Sweet Grass hills anticline near the international boundary to the south. The Dinman anticline lies immediately contiguous to the foothills, while the Monarch anticline in the more northerly latitude lies at some distance to the east of the same relative position with relation to the mountains. Upon this theory, which is backed by many eminent geologists, it is claimed that the Monarch anticline will be subsequently discovered to be much broader than the Dinman anticline, and that further discoveries of even broader and steeper anticlines are being again to the east of the Monarch, but paralleling

may be looked for in the immediate future. This would embrace the Battle River anticline, which Clapp and Huntley speak in their report to the city upon the gas question a year ago, and it is upon the intimation that the Battle River anticline has been located and accurately mapped that the stamped for locations in the Banff and Birch Lake district was made at the land office yesterday, when more than 50,000 acres of oil leases were taken up in townships 48, 49 and 51, in ranges 9, 10 and 11, respectively. It is known that some of the most eminent field geologists who have so far come into Alberta have been working in this section for several weeks past and that the geological department of the dominion government has had a field corps in the district for some little time back. Rumors of a big discovery have been filtering through for some little time but it was not until yesterday that there were given any definiteness of location. Immediately following which the siege of the land office was commenced.

Practically all the locations in the Birch Lake district have been made by Edmonton people, and should developments and the subsequent report of the dominion government geologists, which should be long delayed, corroborate the advance information Edmonton people are due to profit enormously as a result. It was learned on the street this morning that at least one drilling rig had been ordered forwarded from Wyoming by wire yesterday to develop in the vicinity of Birch Lake and this string should be on the ground within the next 30 days, bringing the possibility of oil developments closer to Edmonton than ever before.

As a consequence of the discovery in the Monarch the stockholders of at least two Edmonton companies are jubilant. These companies are the Beaumont, with which Mayor McNamara is associated, which holds a section in township 34, the very next township to the Monarch holdings where the discovery was made, and the Parafine, which also holds leases in the same territory. Stock in both companies has been bought extensively in Edmonton.

In the brokers' trading in oil shares has been more active today than since the Dinman strike early in May, between Edmonton and Calgary both the long distance telephone and the telegraph wires have been so overloaded all day that it has been almost impossible to get messages through, and with the kaidoscopic changes in prices which naturally followed upon the announcement of the Monarch discovery, many of the brokers are "up in the air," being unable to determine just what is the real market value of the stocks offering.

HELP THE GIRLS!

BLANKETING LAND NEAR BIRCH LAKE STILL CONTINUES

Shares of Companies Having Holdings Near Monarch Well in Big Demand

PAY \$1000 FOR PLACE IN LINE AT CALGARY

Trading Brisker Than Any Day Since Discovery—Progress Sells Fast.

There is "something doing" in oil today. In Edmonton, both on account of the discovery of the much-wanted heavy black field at a depth of only 808 feet west of Olds and because of the disclosure regarding the district around Birch Lake on the Canadian Northern, east of the city, trading is perhaps brisker than even during the height of the Calgary-Okotoks field boom.

Yesterday over 50,000 acres of land were leased at the local land office for areas in the Birch Lake district, today the blanketing continues, and this forenoon over 25,000 more acres were taken. The Olds field is located in the Calgary land district and reports reached the city this morning that at Calgary lease-seekers were paying \$1,000 for places in the line of applicants who have stood in front of the land office for hours.

Prices of stocks of those companies which have holdings in the district adjacent to the Monarch well are naturally finding brisk sales this morning, particularly the Progress company, which has 485 acres close to the Monarch, and whose shares have been selling for ten cents since they were put on the market a few days ago. The par value is 25 cents and it is predicted that that figure will be reached in a day or two.

Among other companies which have leases near the Monarch are the Prudential, the Pittsburg, the Dome and the Union Pacific. Every one of these are going steadily upward, in many cases holders not wishing to sell at any reasonable price till they hear of further developments.

Two of the companies headed by Edmonton capitalists have also holdings in the Olds fields. They are the Alberta Beaumont and the Alberta Parafine. Naturally these, also, are finding big sales in the city today.

The photoplay industry of the world now employs capital aggregating over \$300,000,000.

An average of 79 persons yearly lose their lives in forest fires in the United States.

\$31,000 WILL BE COST FOR WIDENING OF EDMONTON STREET

Proposed improvement in widening Edmonton street will cost in the neighborhood of between \$31,000 and \$32,000, according to the estimate made to the commissioners yesterday afternoon. Roughly speaking, it will be about \$20 per running foot.

The commissioners recommended to the city council that concrete walks be laid on 94th street (Carry) to 52nd street (Kinnaird).

SOUTH SIDERS PROTEST AGAINST FRONTAGE TAX

Claim Up-Keep and Opening Saskatchewan Avenue to Be Paid by City.

STATE AMALGAMATION AGREEMENT VIOLATED

Commissioners Seek Interpretation of the Same From City Solicitor.

Property owners on Saskatchewan Avenue, South side, presented a signed protest to the city commissioners yesterday afternoon against frontage tax for improvements. They call the commissioners' attention to certain clauses in the amalgamation agreement which deals with the improvements on this avenue. All up-keep as well as opening the avenue, they claim, was according to the agreement to be done at the expense of the city at large. This they state was the intention of the old council of Strathcona and the agreement at the time of the amalgamation provided that a similar program be carried out.

The portion in question is that lying from Main Street to Fifth Street east on Saskatchewan Avenue. They strongly protest against the proposal of the commissioners to levy a frontage tax.

The matter was referred to the city solicitor by the board, who was requested to give an interpretation of the agreement between the two cities pertaining thereto.

Given Three Sentences. Regina, June 18.—George Hughes of Drovers, Sask., was yesterday convicted by Judge Hanson in the district court of horse stealing, grain stealing and breaking from custody. On each of the first two charges he was sentenced to three years' hard labor and on the last to two years. As the terms run concurrently, Hughes will be free in three years.

MOST GEOLOGISTS PICK BIRCH LAKE DISTRICT HE SAYS

Anticline There is Such as to Make Large and Permanent Field.

HARD TO HIT SHALES IN NARROW FORMATION

Can Tell Within Few Feet Where to Drill for Certain Layers.

One of the men whose services have been retained by those connected with the new Birch Lake oil fields, east of Edmonton on the Canadian Northern, said this morning that practically all those geologists who have picked out that anticline, reaching from near Wainwright to Paken, as the most likely of all to give a permanent flow of oil, should all be found there at all.

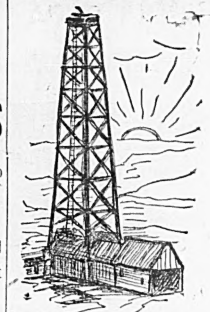

"Geologists cannot tell you," he stated, "whether oil exists under any anticline or not, but they can tell you within a few feet, where to drill to hit certain formations with the least expenditure of money and time. If you drill and hit gas when you want oil, for instance, they can then tell you where to drill the second time so as to get right into the oil shales without penetrating the gas layers."

"There are very few fields in the world, probably only two or three, where real wet gas is found. They find what they call wet gas in many places, and it contains a certain amount of moisture, but when it is analysed, it will be found wanting in certain chemical elements which real gas, wet from oil, should contain."

"Wet gas is simply gas which has been separated from the oil in nature's own laboratory. It can be refined into gasoline if it is the right kind of wet gas."

"The physical characteristics and the geological formations are such in the Birch Lake district that practically all geologists who have made a study of this part of the world have known for years that that anticline is broad and long, and that if oil exists there at all, the truth or untruth of which can be established only by drilling, it will probably be in large quantities and at a small depth."

"Broad, long and regular anticlines, in addition to having a larger area, are much easier to drill to, as the oil shales are spread over larger areas. On the other hand, a driller might come within a few feet of a narrow anticline, then drill a little piece away and come to the other side, missing whatever oil might exist both times."

POSTAL CLERKS' BANQUET HAPPY END TO MEETING

Mail Service Delegates From
Whole West Make Merry
at Fesal Board.

FISHER SHOWS WRONG ATTITUDE OF PUBLIC

Acting Mayor East Has Some
Things for "Knockers" to
Put in Pipes.

Last night at the Hudsona dining-room the second annual convention of the Postal Clerks' association of Western Canada was concluded when a banquet was given, at which many, at present and formerly connected with the postal service, were present and spoke on subjects for the most part connected with the service and the association.

It was a time when the public was given an opportunity, through those who attended, to learn some of the things which are of public interest in connection with the mail service of the dominion, when everything said was said in a sane and attractive way, whether in condemnation or felicity of either the postal servants or the public.

Coming immediately after several sessions held in such a way as to be of importance to all concerned and all concerned with the operation of the postal service, the banquet was a time when the public was given an opportunity, through those who attended, to learn some of the things which are of public interest in connection with the mail service of the dominion, when everything said was said in a sane and attractive way, whether in condemnation or felicity of either the postal servants or the public.

The banquet was a most excellent one in every way—the menu, the service, the songs, the recitations and speeches by people, nearly every one of whom had been for not being an employer. The whole affair was a fitting end to the postal clerks' convention, which had honored Edmonton as its place of meeting.

After the toast to the king and the toast to the city, the former being proposed by the chairman, H. D. Tull, of Edmonton, and the latter by S. H. Surtees, of Edmonton, acting mayor, James East replied to the city's toast in a characteristic way, in which he told of some of the things he had seen done in Edmonton since he had been here seven years ago.

"It seems," said the deputy mayor, "that a great many people make it their business nowadays to knock the city. But I take a different view, and I can show you some ways in which our city has beaten the world, which you never hear mentioned by the knockers."

Quoted Graphic Figures.
Mr. East briefly quoted figures which told more graphically than could words how Edmonton was enjoying the benefits of such things as telephones, electric light, power and other at lower costs for better service than any other city in the northwest. The whole affair was a fitting end to the postal clerks' convention, which had honored Edmonton as its place of meeting.

After the toast to the king and the toast to the city, the former being proposed by the chairman, H. D. Tull, of Edmonton, and the latter by S. H. Surtees, of Edmonton, acting mayor, James East replied to the city's toast in a characteristic way, in which he told of some of the things he had seen done in Edmonton since he had been here seven years ago.

Very Quarrelsome Neighbors Toss—both were unhappy (the trouble was remedied by Putnam's Corn Meal). After 24 hours it "Putnam's" is applied—try it, 25c at all dealers.

service as a magnificent instance of public ownership and a wish that it would soon lose its only curse—the political spoils system.

"The Postal Service" was proposed by F. T. Fisher, secretary of the Edmonton board of trade, and a former assistant postmaster, who said that an investigation by his body had proved that the public themselves were responsible for the present state of the complaints they sent in about the service and responded to by Postmaster George Thompson, of the north side.

Get Increased Salaries.
L. W. Brockington, of Edmonton, in proposing the toast of "The Postal Clerks' Association of Western Canada," stated that it was the first occasion of clerks in the west, and mentioned the fact that the clerical employees of Edmonton were now forming a union also. J. W. Green, Winnipeg, read a paper on the history of the organization briefly and interestingly. He also referred to the fact that he had after several years of service in Ottawa, stating that the bill to grant increases of salaries to the postal clerks had passed the senate and become law.

L. A. Esham welcomed the visitors on behalf of the Edmonton branch of the association, in a most and appropriate manner, and two of the winners—President W. T. Tuck, of Winnipeg, and Secretary A. R. Black, of Vancouver—were fittingly responded.

Toasts Are Added.
The chairman was responsible for another toast added to the list, that to the association's sister society, the letter carriers. Albert Forrest, of Vancouver, responded.

After the toast had been proposed by J. C. Coyne, and spoken to by representatives of the letter carriers, the chairman suggested that still another toast be added, but it had been forgotten, he added—the inevitable toast to the ladies. Two such toasts were given, one by Mrs. J. A. Esham, of Edmonton, and T. A. White, of Moose Jaw, were picked out as responders, and each just 12 minutes when they finished.

No report of the banquet would be half complete without a reference to the splendid song and recitation program put on, and the most notable feature was that practically every one who took part in it was in the postal service. L. A. Esham opened the song part of the entertainment and interspersed the evening with very enjoyable recitations were songs by J. A. Esham, L. W. Brockington, and the post office quartette, also composed of S. H. Surtees, L. A. Esham, E. Greaves and J. A. Esham.

The winners, Swaffield and Brockington were particularly in demand, each being prevailed on to sing several times during the progress of the banquet.

Mr. Brockington made a distinct hit when he rendered a characteristic Welsh recitation (in English), and also when he made a fervent appeal in song, to those who wished to quench their thirst.

During the morning and afternoon session many questions, of which the public are more or less well aware, were discussed and preparations made to call the attention of those in authority to a few of them, particularly the charging of clerks with the loss of money through forgeries and in other ways, which they cannot help, the employment of others than naturalized subjects and blaming post office clerks for such things as wrongly addressed letters.

PASSENGER SAYS THAT EMPRESS WAS STANDING STILL

Awakened by Shock of Collision,
He Put His Head Out
a Port Hole.

ONLY OFFICIALS WILL NOW BE CALLED ON

Both Second and Third Engi-
neers Give Testimony as
to Their Orders.

Quebec, June 18.—The commission that is investigating the loss of the Empress of Ireland called on a witness who had been on board the passenger on the wrecked steamship.

Smart confirmed Captain Kendall's assertion that the Empress was standing still or practically stationary at the time of the collision and that when he put his head out of his port hole he saw the Stora Sjöndalen at hand and at right angles to the hull of the Empress. The impact of the collision, he said, was not severe.

John W. Black, a second cabin passenger on the Empress, testified briefly that he was on the Empress at the time of the collision and that he would be of no value to examine any more passengers.

Robert Henry Brennan, second engineer on the Empress, gave an account of the signals received by telegraph from the bridge, and that after leaving Father Point they were ordered full speed ahead. This order was carried out, and the Empress was going astern for three minutes when they were ordered to stop. The Empress stopped, and the Stora Sjöndalen was going astern for three minutes when they were ordered to stop. The Empress stopped, and the Stora Sjöndalen was going astern for three minutes when they were ordered to stop.

IN THE PARLOR CAR Railway and Shipping News

Two ballast trains are now working on the Strathcona-Camrose short line of the Canadian Northern railway, on which only a few miles still remain to be put into shape for first class passenger traffic. This is one of the lines which will greatly get passenger and freight service when the summer and fall schedule comes into effect, likely July 5. Improvements are also being made on the Athabasca branch, which is to get a faster service than that now given, and also on the main line west, on which steel is laid right to the Rocky Mountains.

When the new C.N.R. time table is inaugurated, that road will have trains coming east, west, north and south to and from Edmonton. At present it runs practically only two ways, as the Stony Plain line is but a stub running to a point about 20 miles west of the city and paralleling the C.T.P. main line. The C.T.P. runs north and south, which will soon provide Edmonton with direct connections with Vancouver, New Westminster and adjacent points, leaving the Athabasca branch for the west and running north and south for about 50 miles, skirting several superb lake summer resorts after which it parallels the main line and enters the province, passing through Jasper park and the Yellowknife.

Blackburn, who is located on the Peace River branch, which runs north-west from the main line, the C.T.P. runs north and south, which will soon provide Edmonton with direct connections with Vancouver, New Westminster and adjacent points, leaving the Athabasca branch for the west and running north and south for about 50 miles, skirting several superb lake summer resorts after which it parallels the main line and enters the province, passing through Jasper park and the Yellowknife.

PIEST COOKS WORLD WIDE AS MISSIONARY

Denver, June 18.—The parish of St. Alexander's, St. McDonald, a pioneer missionary, is composed almost entirely of "Islands" about 100 in number, scattered from Passamunuck bay to Kilbuck Point, and lying for the most part far off shore out of the path of steamers.

On these islands, many of which are mere rock specks in the sea, live or rather exist, about 12,000 persons, few of whom ever see the mainland, and nearly all of whom are utterly ignorant of what goes on in the world. Sailing a boat and catching fish is the sum total of their accomplishments.

There are five or six men on each of the islands to give root to a hill of beans, and they are all of the same age. The boys begin to fish when they are 8 or 9 years old and go on fishing until they are 18, which usually is at a point where the fish are scarce. In any event, he hasn't much to read.

A TRIP TO PANAMA

THE CAPITAL wants every one of its readers to take a trip to the GREAT PANAMA CANAL and see the wonders of this mighty achievement. You say you can't spare the time. All right, then we'll bring the Canal TO YOU—all in one BIG volume, filled with PICTURES of ACTUAL SCENES never before published, described in words that hold you spellbound. Read on, and learn how you may get this magnificent book—this complete story of Panama in picture and prose—

Not merely a picture book, but an educational work of rare interest to every member of the home.

FOR \$1.20 ONLY

Art plates reproduced from water-color studies abound throughout the entire magnificent volume.

Every progressive man, woman and child is eager to know all about the Panama Canal and the remarkable country through which it passes. Realizing this fact several hundred newspapers have arranged to take an enormous advance edition of the most elaborate and complete illustrated history of PANAMA AND THE CANAL, published by the Syndicate Publishing Co., of New York City.

This company is eminently fitted to issue such a work at a minimum cost. It has heretofore supplied through daily newspapers millions of high-class dictionaries and other books.

THE CAPITAL is the one paper in this section through which PANAMA AND THE CANAL IN PICTURE AND PROSE can be had. The plan outlined below tells you how to get this only complete Panama Book ALMOST FREE.

The large volume is twice the size of an ordinary novel; it is a most handsome book, stamped in gold, with beautiful color panel on front cover, showing the famous Culebra Cut; it contains 450 large pages filled with interesting information of rare educational value to every reader. The illustrations are modern works of art, covering every important scene in the Canal Zone; they include 16 water-color plates with more than 600 photographic studies.

Presentation By The EDMONTON CAPITAL

Willis J. Abbot, the versatile writer on International subjects and author of many books of history and travel, spent months in Panama and the Canal Zone in the preparation of this volume. He collected at first hands the complete history of the great Canal, with a wealth of historical data concerning Panama which has never before been written. The result is a human interest story of this beautiful land and its people from the early days when Columbus tried to find a natural waterway from the Atlantic to the Pacific, down to the present time.

Special staff photographers made the hundreds of beautiful views which illustrate practically every page of this exhaustive book.

The well-known artist, E. J. Read, made the sixteen sumptuous water-color studies which are reproduced by the latest color processes on specially made paper.

The Panama Canal, the greatest engineering achievement of the world's history, cost more than

\$400,000,000

It links the two greatest oceans, and becomes the most important factor in peace and war. So where is the red-blooded inhabitant of this globe that does not feel vitally interested in it? Truly it is the wonder of this progressive age!

PANAMA and the CANAL in PICTURE and PROSE

The Most Unusual Canal Scenes Described in Word Pictures That Fill You with Astonishment at the Wonders of this Great Undertaking

The greatly reduced illustration printed below shows less than half the size of the large illustrated volume

Learn How You Can Get This Beautiful Volume Almost Free

Compared to other similar standard books it is

Fully Worth **\$4.00**

and will be sold at this price after the present edition has been distributed. This unheard-of value to our readers represents more than an 80 per cent. saving.

It tells you of the people of Panama and the Zone—their dress, their homes, their work and pastimes.

HOW TO GET IT

In another column of this paper is printed daily a Panama Certificate. To get PANAMA and the Canal in Picture and Prose at less than the usual cost of printing and binding, clip and present

6 PANAMA CERTIFICATES OF CONSECUTIVE DATES

to this office as named therein, with the expense amount herein set opposite the style selected (which covers the items of the cost of packing, express from the factory, checking, clerk hire and other necessary EXPENSE items), and receive your choice of these books:

Panama and the Canal in Picture and Prose \$4 Illustrated Edition

This beautiful big volume is the acknowledged standard reference work of the great Canal Zone. It is a splendid large book, printed from new type, large and clear, on special paper; bound in tropical red vellum cloth; title stamped in gold, with initial color panel; contains more than 600 magnificent illustrations, including beautiful pages reproduced from water-color studies in colorings that far surpass any work of a similar character. Call and see this beautiful book that would sell for \$4 under usual conditions, but which is presented to our readers for SIX Certificates of consecutive dates, and only the

Expense Amount of \$1.20

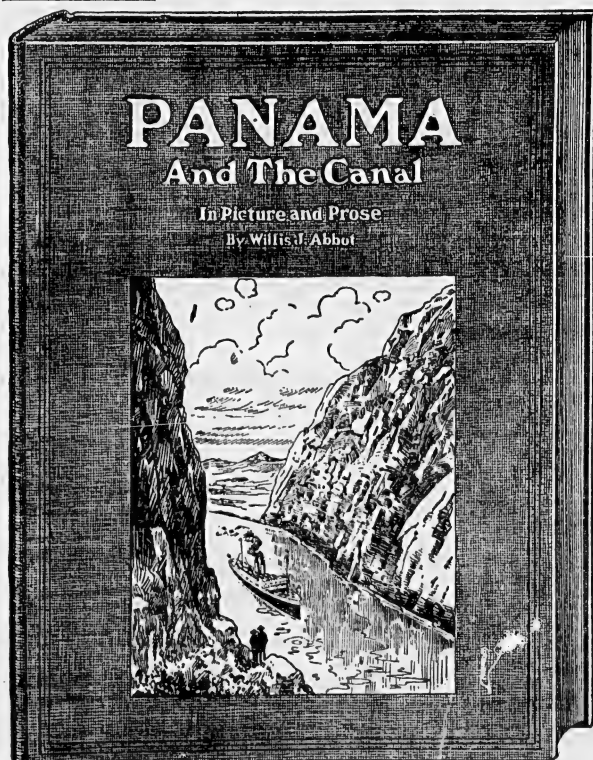

Sent by Mail, Postage Paid, for \$1.50, and 6 Certificates

Panama and the Canal \$2 Octavo Edition

Regular octavo size; text matter practically the same as the \$4 volume; bound in blue vellum cloth; contains only 100 photographic reproductions and the color plates are omitted. This book would sell at \$2 under usual conditions, but is presented to our readers for SIX Certificates of consecutive dates and only the

Expense Amount of 50c

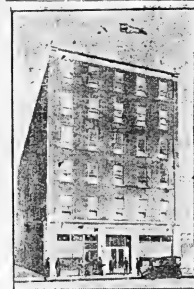

Sent by Mail, Postage Paid, for 70c and 6 Certificates

Greatly Reduced Illustration of the \$4 Volume—Exact Size 9x12 Inches

GOVERNMENT HAS NO INTENTION OF ADMITTING HINDUS

Captain of Komagata Maru in Worse Quandary Than Ever About Sailing.

TO SEEK ASSISTANCE JAPANESE WARSHIPS

Conditions of Admission May Be Made—Same for All Classes Asiatics.

Ottawa, June 18.—The Hindu problem on the Pacific coast is giving the immigration officials here no small amount of anxiety and there is little relief when the Komagata Maru sets sail from Vancouver with its load of trouble. It has been made abundantly clear that the government has no intention of admitting them and the problem now is to get them back.

Vancouver, June 18.—As the fact that the Hindu is certainly in command for all practical purposes aboard Komagata Maru, there is little developing in connection with those would-be immigrants. While the owners have been making a determined effort to have their ship start back for the Orient today, it was admitted last night there is no chance of that and the ship will be detained here until after tomorrow to Koke relative to the matter. Captain Yamamoto is plainly in a funk to know how to deal with his recalcitrant passengers as they refused to allow the first under the boilers of the Komagata Maru to be started Tuesday morning.

The authorities have so far been unable to figure out the best way of getting them out at the same time making certain that bloodshed will be avoided. Captain Yamamoto is in a predicament to know how to deal with his recalcitrant passengers as they refused to allow the first under the boilers of the Komagata Maru to be started Tuesday morning.

London, June 18.—A message from Victoria, B.C., Tuesday evening credited Mr. H. H. Stevens, Federal member for the district, with stating that the British government was being consulted on the subject of Hindu immigration.

It is understood that the Indian and Chinese authorities are agreeable to an arrangement on lines of Anglo-Japanese treaty of 1911.

CITY'S MORALITY DEPARTMENT BUSY MAKING ARRESTS

No less than 14 arrests were made in alleged disorderly houses last night by the detective of the morality department on the police force. In all, three raids were made and those arrested brought to the police station, where they will appear in court today.
Four men and two women were taken into custody at a shack at 10221 Kinsmen avenue, detective-sergeant House and detective Roberts and their arresting Mr. Katie Swift, Pearl Simpson, Mike Warren, Wm. Miller, W. Peabody and J. H. Swift. The latter will be charged as being the keeper of the house and a charge of white slavery will also be laid against him.
At the National rooming house on Kinsmen avenue, Delta Marks, Effie Grubbs, who are the keepers of the house, and Edward Spencer, the porter, were brought to the station. Besides a charge of running a disorderly house, a charge of selling liquor was brought against the keepers of the house.

The third place raided was the Transient rooming house at 749 First street. Those arrested were Mrs. E. C. Jones, who will be charged with keeping the house; Violet James, Mabel Howard, Charles E. Wallace and Dale W. Norman.

Chief of police Hill has stated that in future drunks and vagrants who are given 10-day sentences, will not be allowed to spend their sentence in the police cells, but must be sent to the prison farm. The reason given is that he believes the cells to be totally unfit for habitation.

Chief Hill is also of the opinion that some severe sentences are necessary to convicted white slavers, and men found living off the avails of prostitution, as a warning that that class of crime will not be tolerated longer in the city.

CAN ALBERTA TAX RAILWAYS GRANTED DOMINION CHARTERS?

Ottawa, June 18.—Whether a province has a right to bring under provincial control and impose conditions on railways incorporated by federal authority is a question to be brought before the privy council at its midsummer sitting. The government of Alberta passed such an act and the government here instead of exercising the prerogative of disallowance decided to refer it to the privy council. The case will be argued by the deputy minister of justice.

Berry Elected Again.
Knoxville, Tenn., June 17.—Officers elected at the annual convention of the Printing Pressmen's and Lithographers' union of North America, in session at the pressmen's homes at Hales Springs, include: George J. Hales, Hales Springs, president; vice-president, Joseph M. Brophy, Milwaukee; secretary-treasurer, Joe C. Coy, Hales Springs; home trustee, W. J. Hall, Toronto.

IT'S "CONFIDENCE" THAT BRINGS ECONOMISTS HERE BY THE THOUSANDS "BARGAIN DAY"

THESE COLUMNS of store news tell of values of the purse-opening variety—values that will appeal irresistibly to every woman and man too, who studies true economy. Rely implicitly on the advertised word—values are what they are represented to be—"as good as the wheat"—and redeemable in quality to the last penny. A BARGAIN never fails until it fails TO BE a bargain, and at Johnstone Walker's a bargain never fails.

Women's "Seconds" In Silk Hose at 23c Pair Friday

YES, that's just exactly what you will find awaiting you in the Hosiery section, Friday a.m., if you are among the early shoppers, for they'll not last long at this price.
They are in black only, made with a heavy knit foot and foot, with deep blue garter top and garter heels and toes and heels. Slight imperfections which make them "seconds." Sizes 8 1/2 to 10. Regularly 25c. Friday Bargain 23c.

Children's \$3.75 and \$6.75 Summer Coats Bargain Priced \$1.00

THE price is so ridiculously low we feel we must make ourselves clear that there is no mistake in the pricing. It's simply a season's end clearance of old lines bargain priced to clear regardless of cost. An 8:30 a.m. shopping call.

They are of fine Summer weight cream serge or basket cloth in two pretty double breasted box styles with collar and turn-back cuffs of blue silk, edged or trimmed with silk braid, medallions or orange lace. Twelve only; sizes 2 to 6 years. Regularly \$3.75 and \$6.75. Friday 8:30 a.m. \$1.00. Limit—1 to each customer.

Children's Dresses at 65c Regularly \$1.25

THOSE who find themselves too late to share the \$1.00 coat bargain may be able to secure one of these little wash dresses at half price.
They are of fine white mill or cambric in Mother Hubbard and French styles with yoke and cuffs of insertion and ribbon or embroidery; neatly tucked skirts. Sizes 2 to 6 years. Regularly \$1.25. Friday Bargain 65c.

Bargain Day Brings Values of the Extraordinary Kind in Women's and Misses' Coats

JUST SUCH smart and serviceable styles as are in demand by those planning vacation trips for wearing on the "water," or chilly summer and early fall evenings. But what will be appreciated most is the extraordinary low bargain day pricing—many at Less than Half Price.

Women's and Misses' \$15.00 to \$20.00 Summer Coats at 8.50

They are mostly fashioned in short smart styles in fine wool plaid, blanket cloth and diagonal cheviot, light tan, tan, Russian green and cream; in straight effect, with yokes and cuffs, with radian or kimono sleeves; trimmed with belt of self and buttons; while others are in the three quarter lengths, featured of Scotch tweeds and fancy diagonal weaves; colors, tan, blue, grey or black, in loose straight effects, kimono or set-in sleeves, with roll collar and cuffs trimmed with silk in shades to harmonize with the dress. Sizes 14 to 42. Regularly \$15.00 to \$20.00. Friday Bargain 8.50.

Reg. \$22.50 to \$28.50 Values, Bargain Priced at \$12.50

Pancy Coats featured in the broadest effects, wool serges and stripe effects, in tan, blue, grey, navy, or red, in straight effects with cutaway fronts; silk lined, with fancy trims and Oriental silks, dorette, and satin, also fancy lace button fasteners. Regularly \$22.50 to \$28.50. Sizes 16 to 40. Friday Bargain \$12.50.

30c to 60c Neck Frillings and Pleatings 17c Yd.

THESE dainty neck frillings and pleatings are an fashionable this season, and so rarely do women have an opportunity to buy 30c values at 17c yard that the morning hours' selling is almost sure to clear the lot.

They are in lace satin and lawn with insertion or lace trimming in white and cream and combining shades in assorted widths. Just the thing for suits, waists and dresses. Regularly 30c to 60c. Friday Bargain 17c.

Women's \$2.50 to \$3.00 Pumps and Oxfords in High Grade Makes at \$1.45

THE VERY FACT of this bargain day grouping including such reliable makes as "Dorothy Dodd," "J. & T. Bell," "Empress" and other high grade makes assures fast and furious selling from opening until closing hour. Women will scarcely know just to get here soon enough to make sure of a pair.

They are in patent leather, gummetal and dungs in black, tan or brown. Oxfords for plain or lace styles, while the pumps are with or without strap with turn or rounder welt sole. Sizes 2 to 8 1/2. Regularly \$2.50 to \$3.00. Friday Bargain \$1.45.

Misses' Pumps & Oxfords \$1.75

Dressy new summer styles in black or brown dungs. The pumps in one strap style with two strap style with bow. The Oxfords are in blusher style; medium weight sole and low heels. Sizes 11 to 12. Friday at \$1.75.

Misses' and Children's Canvas Pumps at 85c to \$1.25

Cool and inexpensive summer pumps of one strap style with two strap style with bow, flexible leather soles and low heels. Sizes 4 to 7 1/2 at 85c and 4 to 10 1/2 at \$1.25. Friday Bargain \$1.25.

Best Values Go To Those Who Shop Early.

JOHNSTONE WALKER'S FRIDAY STORE NEWS

808-808 JASPER EAST BETWEEN MIDGALL AND QUEEN

Regular 75c and 90c Table Linen at 50c Yard

FRIDAY 8:30 a.m. will find us cutting off lengths of these table linens as fast as we can unravel them. Early shoppers will choose the better value and most attractive patterns.
They are a pure damask linen in good serviceable quality for restaurant, boarding houses, or breakfast cloths in private homes. 46 to 70 inches wide. Regularly 75c to 90c. Friday Bargain 50c.

75c Buys Lovely Embroidery Flouncing Regularly \$1.00 and \$1.25 Yard

WOMEN familiar with Johnstone Walker "Quality" embroideries will fairly tumble over themselves to secure first choice of this grouping of \$1.00 to \$1.25 values at 75c yard.

They are of fine Swiss muslin, measuring full 45 inches in width with attractive embroidered designs extending 25 inches; have well finished scalloped edges. Excellent quality and value at \$1.00 and \$1.25. Friday Bargain 75c.

Women's 25c and 30c Tea Aprons at 19c

They are of dainty white lawn or muslin trimmed with lace or insertion and silk ribbon bows. Long ties. Regularly 25c and 30c. Friday Bargain 19c.

Bargain Day Grouping Curtain Muslins 25c Yd.

HOUSEWIVES will be quick to realize that it's quite possible to replace curtains on three windows for what it usually costs for two.

35c and 40c Values at 25c Yard.
A splendid selection of Madras curtain muslins in every shade with plain or scalloped edge in small and all-over and bordered designs. 40 to 45 inches wide. Regularly 35c and 40c. Friday Bargain 25c.

Novelty Cotton Dress Lengths at \$3.95

IT WON'T take many seconds for women to see how it's quite possible to secure a dress length worth \$6.75 for \$3.95. All that's necessary is early shopping.

Selection includes such fashionable new waives as: broadened crepe-de-chine, moire, velveteen, silk and cotton rathens in a splendid range of new shades. Suitable for street or evening dresses. Regularly \$12.50 to \$15.00. Per length of 4 1/2 yards. Friday Bargain \$3.95.

Dainty \$2.75 and \$3.95 Values In Princess Slips at \$1.00

THIS will undoubtedly prove one of the day's most attractive offerings—women will scarcely be able to believe their own eyes when they see \$2.75 and \$3.95 values at \$1.00.

Light Colored V-necked Slips, of fine French mill, with long, round necks and arm holes trimmed with edging, and finished on the bottom with deep lace trim with several rows of lace insertion and edging. Regularly \$2.75 and \$3.95. Friday Special \$1.00.

A Profitable Day For Parents in the Boys' Department

UNDERWEAR SUITS, FANTS & BELTS—just about all the "Barefoot boy with checks of tan" needs for the holiday season at savings worth while.

Boys' 30c & 35c Underwear at 25c Each

Choice of half-hugger or open short waives—natural shade, shirts with long or short sleeves; drawers in knee or ankle length. Sizes 26 to 32. Regularly 30c and 35c. Friday Bargain 25c.

Boys' \$2.25 to \$2.50 Lounge Shirts at \$1.50

Boys' and youths' sizes, 12 1/2 to 14 neck, in fine quality flannel shirting in plain cream or cream with narrow stripes; soft cuffs and soft detachable collars. Regularly \$2.25 to \$2.50. Friday Bargain \$1.50.

Boy's \$1.00 and \$1.25 Separate Pants, 79c

Strong serviceable pants in "Lion" brand with double seams, made from imported twoside in dark and mixed effects; well lined. Sizes 27 to 32. Regularly \$1.00 and \$1.25. Friday Bargain 79c.

Boys' 25c & 30c Belts at 19c

They are of soft tanned leather in black or tan with neat buckles. Sizes 24 to 32. Regularly 25c and 30c. Friday Bargain 19c.

BAILIFF'S SALE

Under and by virtue of a Lien
Agreement made by H. A. Robert
son, Edmonton, to Condon &
O'Dwyer and to me directed against
the goods and chattels of Otto
Zwara, Edmonton, named in the
said Lien Agreement, I have seized
the following goods, namely: One
Registered Holstein Bull, Lorraine
Dutcher No. 12008.

One Registered Yearling Bull,
Six Registered Holstein Cows as
follows: Mauch Foch Calanthy No.
1508; Lauretta De Kol No. 1415;
Daisy Beauty Alberta No. 1025;
Homestead Clotilde Queen No.
1027; Daisy Netherlands Queen No.
1114.

I have seized the following
goods, namely:
One Registered Yearling Heifer.
One Registered Holstein Cow No.
1010.

One Registered Holstein Cow No.
1010.

Which I shall expose for sale on
the 20th day of June, 1914, at the
Exhibition grounds, Edmonton, at
the hour of 2 p.m.

Dated 18th June, 1914.

CONDON & O'DWYER,

Phone 4232; House 4205.

dropped from 1/4 to 1/2 below opening.
The decline was more marked on
American markets, and it is significant
that Kansas City had dropped a fur-
ther half cent. All European mar-
kets were weaker.

At noon prices were about
at the low point as far as the course
of trade had then gone, wheat having
present low prices, and it cannot be
disputed that spring wheat, both
American and Canadian, will be ser-
iously affected by longer continuance
of hot, dry weather. Of course, a gen-
eral rain over the spring wheat coun-
try would be very heart, as heavy
rains here harvest is now in pro-
gress would be bullish. Interest,
therefore, centers in American weather
conditions. Oats are following wheat,
although the oat crop east of the Mis-
sissippi and western Canada is
likely to be light. Flax is steady, with
a poor demand.

In cash there is some demand for
numbers 2 and 3 northern. All other
grades are weak and no export business
is doing.

Receipts were 214 cars inspected and
250 in sight. Minnesota 65; Duluth,
132; THEM YOU SAW IT IN THE
CAPITAL.

ADDITIONAL SPORT

McCAULEY SCHOOL WINNER OF TWO BASEBALL TITLES

The final game in the senior series of the Public School Baseball League was played on Ross Plaza, and resulted in a win for McCauley. Queen Alexandra and McCauley Schools had already won a game apiece, consequently the second win for McCauley places them at the head of the list as Public School champions for 1914.

For the losers, Crump pitched excellent ball but his team failed to give him their usual good support. Queen Alexandra appeared to be weak in batting and at exciting moments the majority of the team went up in the air.

For McCauley, Thompson pitched excellent ball and received first class support from his team. The batting was exceptionally heavy. Crump pounding out a home run in the 4th inning. The following is the line-up:

Queen Alexandra—
Dickie, Bowen, McGregor, Crump, Marshall, McLeod, McKinnon, Tebb, Rutland.

McCauley—
Tait, Clarke, Pfeiffer, Thompson, Stanley, Mahoney, James, Dufort, Welch.

Score by Innings:
Queen Alex. 1 1 1 0 2 0 6 5
McCauley 1 2 2 2 2 3 12

Public School Minor League

The second of the final games in the minor division of the Public School baseball league resulted in a win for Highlands over Rutherford by a score of 26 to 8.

The pitching of McChesney was the feature of both these games. The Highlands score are therefore champions of the Public Schools under 16 years for the year 1914.

The following are Public School Baseball League Champions 1914:
Major League Seniors, McCauley School.
Major League Juniors, McCauley School.
Minor League, Highlands.

New Track Record

Regina, June 18.—Tom Moke, owned by Lou Childs, of Spokane, set a new track record for Regina yesterday when he won the second heat of the 215 Turf in the fast time of 2:16. It was the fastest heat ever stepped over the Regina track. The old track record was 2:16 1-4 and was established by Heaver here last year.

Some Fan Talk.
The following written "Notes" could have been seen on a window of a store in Toronto the other day: "This person is allowed today on account of the funeral of his grandmother."

In a German hospital a series of mirrors reflect beams of light free from shadows upon an operating table from an arc lamp outside the operating-room.

WHITE STAR DOMINION ROYAL MAIL STEAMSHIPS

SUMMER SCHEDULE

From Montreal. From Liverpool.
Sat. June 20 LAURENTIC Sat. June 20
Sat. June 27 TERNANT Sat. June 27
Sat. July 4 MEGANTIC Sat. June 28
Sat. July 11 CANADA Sat. June 29
Sat. July 18 CANADA Sat. June 30
And weekly thereafter.

Book early and secure choice of accommodations.

W. H. McLEOD, C.W.P.A.
233 Main Street, Winnipeg.

Or to any railway or steamship agent.

BRAMPTON'S MANN CUP CHALLENGERS LEAVE FOR COAST

Brampton, Ont., June 18.—About 500 citizens, headed by a brass band, gave the local Mann cup challengers a brilliant send-off last night in quest of the amateur lacrosse championship of the world, at Vancouver on Saturday, June 27, and Wednesday, July 1, total goals on the round to come. The money required to send the team on its long trip to the Pacific coast was subscribed by the citizens, who have always been loyal to their lacrosse teams. Fourteen players made the trip, while Stevens, the challengers' most centre player, is now in Vancouver. About 10 supporters were also included in the party, which left Toronto later in the evening, where they were also wished the best of luck by quite a crowd of Queen City supporters.

NEWS OF TORONTO CANOE CLUBS.

By James J. Dolan
Everything is running smoothly at Balmy Beach this year and although the club will not have a war canoe crew of world beaters they have excellent material for two good crews this year. Stan Reid, of Toronto Canoe club, is fast, working his green assortment of paddlers into shape and it looks as though Balmy will have a much better crew than they have had for the past few years.

The club have purchased several new racing boats and expect to have entries in every event this year. Warren Corry is working out in the singles and may be back in the game again.

The war canoe crews practice on Monday, Wednesday and Friday evenings and have supper served at the Club house after their workout. The crew this year has very few of the very boys and is made up largely of novices who are doing their first season at the paddling game. This, however, is not a bad fault as they pay stricter attention to the coaching than the older boys.

It does not look as though Ken Beach will be represented with a war canoe this year. A great number of their old standbys have quit the game and they have about given up the idea of having a war canoe. This does not mean that Ken will be out of the game, as they will have entries in the singles, tandem and four and with the Hulse and Williams boys paddling, will give all the clubs a battle at the C.C.A.

The Ken Beach club have been fighting against heavy odds since their inception three years ago, as they have never had a club house and when the winter months came along the boys naturally drifted away and lost their summer enthusiasm. Some of their war canoe boys will probably be found paddling with Balmy Beach. This will bolster up Balmy and go a long distance in the establishing of one big canoe club for the beaches.

Now that Ken have decided to drop the war canoe for this year at least, they are pulling strongly for Balmy Beach to go out and spill the beans, but it looks like Balmy will have to wait with such slow reports from the Toronto and Port Huron training camps. With these older clubs have had considerable gymnasium work before the paddling commenced, and are now fit for a hard race, while the other clubs have only commenced training.

Sentenced to be Hanged.
Calgary, June 18.—Alfred Schodoff, Max Mandelk and Joe Smith, Calgary residents, were found guilty yesterday of murdering Paymaster Williams of the Canadian Customs at Eschew.

May 25, and sentenced to hang. The three were to be hanged at Marston on August 28. The jury recommended life for Mandelk's behalf.

MILLERS OUT-HIT RED SOX AND WIN

Becker and Stis Clash—Chief Smith Got Three Hits—Score 9-3.

Moore Jaw, June 18.—The Robin Hoods took the opening game of the series with Regina here last night by hitting the ball when his meat runs and taking advantage of every break in the luck. Concannon pitched fair ball, superior to the brand shown by Berger, who worked for the Sox. Twelve hits to nine in favor of the local men resulted and each team made one run. Regina's error figuring in the scoring, while the one made by Augustus, for Moore Jaw did not.

Umpire Becker had trouble with Manager Stis figuring the game, the Regina boss figuring he was getting the worst of the close decisions. Casey Smith, Regina's Indian outfielder, started with the club, getting a double and two singles in four times up.

Score—
Moore Jaw . . . 600 101 340-15 1
Regina . . . 001 000 002-3 9 1

Batteries—Concannon and Wally Berger and Netzel.

POWER TO TALK
AND THINK ARE
VALUABLE ASSETS

There is one ball player who is almost invaluable to a team, and that is the player who can think and talk simultaneously. He is a rare bird, and any team which possesses such a man in its regular lineup has a prize. There are lots of players who can think, and there are plenty of them who can do talk a lot during a ball game, but many of those who do the best and quickest thinking don't talk, and most of those who do the most talking are stricken dumb in a pinch.

You will hear a great deal of chatter from the players in the field during a game, and it passes current for ginger, or pepper, or fighting spirit, whatever one chooses to call it. But a great deal of it is mere "talking cymbal and sounding brass." It is no more proof of a fighting spirit than if a phonograph were receding off the same set phrases. It is a good thing for the game, for it liven things up and helps entertain the fans. There is nothing more dreary than a 1 to 0 pitcher's battle between a couple of deaf mute teams.

The rattle and cackle of the coaches and players listens like something doing, anyway, while a team whose players never say anything would make almost any game appear to be lifeless and uninteresting. But the noise seldom is any value to the team which makes it, and when it is of value it is invaluable. That is the point I am trying to make; not underrating the suppression of the phonographic ball player who is constantly shouting his encouragement to his pitcher or the catcher in a tight place.

See how the clear-vision wind-shield is built into the deep arched cowl. How the pantoside top and slip-cover blend with long, low body-lines.

Mark the tire-holder, removed from side to rear. Permits wider doors—easier entrance—clean running boards.

Examine the expensive hand-hammered aluminum body. No other material takes—and holds—such lustrous finish. On no other surface, are paints and enamels at their best.

Those big, handsome lamps were designed for the RUSSELL-KNIGHT. A single one costs as much as all five on many other cars.

The superb upholstery—the rich appointments—the many advanced features of equipment, emphasize the distinguished appearance of the RUSSELL-KNIGHT.

In the most fashionable assemblage—among the world's most costly cars—you are proud to own or drive a RUSSELL-KNIGHT. The proof is in the car. Ride in a RUSSELL-KNIGHT to-day. Ask any demonstration. Suggest any test. Propose any trial. Talk with Russell owners. Next to the car itself, they are its best advertisement. For each knows by experience the safety and satisfaction of owning the car that's

"Made Up to a Standard—Not Down to a Price"

FATAL ACCIDENT TO
A FRENCH AVIATION
OFFICER A MYSTERY

Chatres, France, June 18.—Major Guerin Peltz, commander of the aviation school at Chatres, was killed yesterday while testing a new self-igniting engine, when at a height of 2500 feet the machine was observed to turn suddenly and drop to the ground.

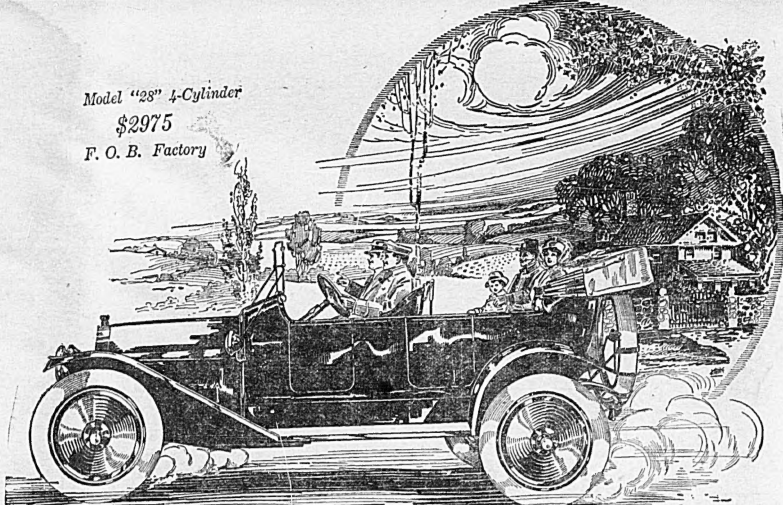

The cause of the accident is a mystery, as the aeroplanes was found to be in perfect order. It is thought that the aviator stopped his engine, with the intention of testing the ability of the machine in planning, and that while doing so he attempted to turn too sharply and the aeroplane crashed.

Major Peltz was the army aviator who organized the French aviation squadron for service in Morocco. Last August he made a number of successful tests of a self-igniting flying machine and has been engaged in similar work during the past few months.

Smithsonian Institution, Washington, has a collection of 5,000 species of cactus.

Others Must Rest.
Ottawa, June 18.—Hon. T. W. Crothers, minister of labor, will not be able to take part in the Ontario provincial campaign. His medical adviser has ordered him to take a month's rest, and he has left for Prince Edward Island. Mr. Crothers was seriously ill in the spring with erysipelas, and is still feeling the effects of it.

HELP THE GIRLS!

A Car To Be Proud Of

Russell
KNIGHT

In every requisite of a perfect car, the RUSSELL-KNIGHT ranks first.

Appearance

It is a car of surpassing beauty. Of individuality and charm.

Note the exquisite lines. The straight, flush sides—unmarred by locks or catches. The graceful sweeping fenders of most approved type.

See how the clear-vision wind-shield is built into the deep arched cowl. How the pantoside top and slip-cover blend with long, low body-lines.

Mark the tire-holder, removed from side to rear. Permits wider doors—easier entrance—clean running boards.

Examine the expensive hand-hammered aluminum body. No other material takes—and holds—such lustrous finish. On no other surface, are paints and enamels at their best.

Those big, handsome lamps were designed for the RUSSELL-KNIGHT. A single one costs as much as all five on many other cars.

The superb upholstery—the rich appointments—the many advanced features of equipment, emphasize the distinguished appearance of the RUSSELL-KNIGHT.

Durability

The RUSSELL-KNIGHT improves with use.

The materials are the finest that money can buy. Steels, vastly tougher, stronger and more lasting than used in any other industry, are found in the RUSSELL-KNIGHT.

The best-paid Canadian workmen are in the RUSSELL shops. Skill and experience are supplemented by most modern machinery. Every operation is checked, and proved by frequent, searching inspections. Each car is given exhaustive tests over every kind of road.

The motor grows smoother and quieter with every mile. It actually gains power with use. It has no springs—no cams—no tappets—no valves. In fact, one-third less parts than other motors. Its never out of adjustment.

The three-speed transmission retains its silence. The full-flouting rear axle remains quiet. Every part continues in perfect harmony with every other part.

RUSSELL Factory Branches with completely equipped Service Stations in every important Canadian city and town, insure swifter, more efficient and more satisfactory service than YOU get with any other car.

Comfort

COMFORT, is the final touch to this perfect car. Your first RUSSELL ride is a revelation of what real car-comfort means. You learn for the first time, how comfortable a car can be built.

The smooth motor—the quiet axle—the liberal wheel-base—the big wheels—the generous tires—unite to give the RUSSELL a mechanical "balance" that makes it fairly "hug the road."

The 12" deep upholstery, over special cushion-springs, strikes a new note in luxurious riding.

The long, broad springs of imported steel insure wave-like ease of motion over rough-est roads. Engineers agree that RUSSELL-KNIGHT springs reflect the best spring practice in the world. So soft, so "live," so resilient—they turn country trails into smooth inviting roads.

In the swift, silent movement of this splendid car—in the depths of its rich upholstery—in the convenience of its Electric Starter and Electric Lights, Engine-driven Tire Pump, and Left Side Drive with Centre Control, you find a new standard of Comfort, achieved in no car save the RUSSELL-KNIGHT.

In the most fashionable assemblage—among the world's most costly cars—you are proud to own or drive a RUSSELL-KNIGHT. The proof is in the car. Ride in a RUSSELL-KNIGHT to-day. Ask any demonstration. Suggest any test. Propose any trial. Talk with Russell owners. Next to the car itself, they are its best advertisement. For each knows by experience the safety and satisfaction of owning the car that's

"Made Up to a Standard—Not Down to a Price"
